**Product description**

**Manufacturer identification** Schneider Electric Industries SAS

**Brand name** Schneider Electric

**Product function** The main purpose of the KNX Multitouch Pro is to offer the most complete and flexible interface to control the different applications integrated in the system. This range consists of electronic KNX interfaces with touch display, IR proximity and gesture detection. The representative product used for the analysis is KNX Multitouch Pro Ref: MTN6215-0310.

**Product reference** MTN6215-0310

**Additional similar product references**

**Total representative product mass** 63,966

**Representative product dimensions** 55 mm x 55 mm x 28 mm

**Accessories**
- Dismantling protection MTN6270-0000
- Remote sensor for room temperature control unit UP/PI MTN616790

**Date of information release** 08/2016
### Legal Information

This product family is in the scope of European Union directive 2012/19/EU on Waste Electrical and Electronic Equipment (WEEE). The product family must be disposed according to the legislation of the country. This document is intended for use by end of life recyclers or treatment facilities. It provides the basic information to assure an appropriate end of life treatment for the components and materials of the product.

### Recyclability Potential
