

Edge IT Program

Step by Step Guide for Edge IT discount registration

The Deal Registration Portal and the APC Design Portal can be found on the APC Partner Page. Follow the steps below for Edge IT Registration & Design Portal steps.

Edge IT Registration

1. Log into your *APC Personal Page* at www.apc.com/personalpage. If you do not have an *APC Personal Page*, [click here](#) to register.

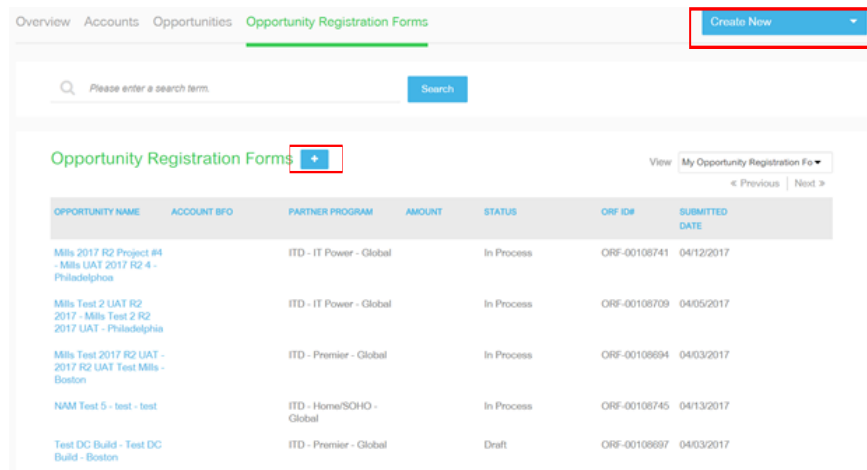

The screenshot shows the Schneider Electric login and registration interface. At the top, there is a green header with the Schneider Electric logo and the slogan "Life Is On". Below the header, the page is divided into two main sections: "Connect with*" and "New User".

The "Connect with*" section includes social media login options for Facebook and LinkedIn. Below these, there is a horizontal line with "OR" in the center, followed by input fields for "email" and "Password". A "Login" button is positioned below the password field. A link for "> Password Help" is located to the right of the password field. A disclaimer at the bottom of this section reads: "* If you already have a corporate account registered with Schneider Electric, please login with your company email address and password. Social Network Sign-on will NOT permit access to your registered applications, such as my Schneider Electric."

The "New User" section contains a "Register Now" button and a brief description: "Register now to receive customized access to tools, documentation, resources, and support built for your key needs".

2. mmmm.

3. From the POMP homepage, select the *Opportunity Registration Forms* tab. On the next screen, click the *Create New* button, or the + button.

4. Fill out the fields with a red bar next to them on the form as well as the contact details. Under the *Opportunity Information* section, put the name of the project, the currency and the expected order date. In the *Description/Comment* field, briefly describe the project and write *Edge IT* in it along with the BOM, ISX number, or Reference Architecture ISX.

5. Click *Save & Submit* to submit in your registration. If you select *Save as Draft*, the registration *will not be submitted*, but only saved as draft.
