More Outlets: Power more devices at once than ever before; the new APC SurgeArrest P6WU2 has 6 surge protected outlets – 2 more than the previous model.

Enhanced USB Charging: The P6WU2 has 2 USB ports for charging smartphones, tablets, cameras, portable gaming consoles, and any other USB powered device. With 2.4A of smart charging power, the P6WU2 SurgeArrest charges mobile devices faster than ever before through auto-detection of plugged-in electronic equipment.

Why Choose APC?

APC by Schneider Electric is the most trusted name in power protection

- Prevent physical damage to your electronics caused by electrical surges and spikes
- Protect your data by preventing surges from interfering with devices that create or store data
- Save money by reducing the need to repair and replace damaged electronics
- Lifetime warranties and Equipment Protection Policies (EPP) are offered for the APC SurgeArrest P6WU2, providing ultimate peace of mind
