Operations recommended for the end of life treatment

There are several steps to process the products at the end of life so as to recover components, materials or energy :

Reuse ⇒ Separation for special treatment ⇒ Other dismantling ⇒ Shredding

The components of the products that are recommended to be separated from the flow of waste for special treatment are listed, identified and located hereunder.

Comment	Number on drawing	Components	Comment
Special treatment	1	External electrical cable	To be cut and sent for special treatment
Special treatment	N/A (internal parts)	Electronic circuits	Dismantle the safety light curtain and send the electronic circuits for special treatment
