

Integrated IT solutions

Life Is On

Five steps to easy integration

Schneider Electric's integrated IT solutions simplify infrastructure supply chain, reduce time and cost to deploy, and reduce the overall complexity of your IT solutions and operations.

Choose your rack

Schneider Electric has the right rack system to fit your needs. Choose from traditional IT cabinets, CX furniture enclosures, wall-mount enclosures or, multi-bay enclosures.

Select your components

Customize your racks and have them prebuilt and preconfigured with your power strips, UPS, data cabling panels, organizers, fans, and other IT gear.

All components installed

Schneider Electric has a comprehensive selection of components, all installed at customer-defined locations within the rack.

Delivered on shock-proof pallets

Our shock packaging pallets are designed to safely load, transport, unload, and deploy a cabinet with up to 2,000 lbs of IT equipment installed.

Rack installed at your location

Schneider Electric can help you with everything from electrical and mechanical installation, to third-party management services. We're here for you.

Simplify your IT infrastructure solution

Keep up with the speed of business with integrated infrastructure solutions from Schneider Electric.

- Improve speed and simplicity of deployment
- Reduce costs and time associated with managing multiple solutions providers
- Boost uptime of IT system with a standardized solution

Our integrated IT rack system helps lower deployment costs and time by providing a full rack with all rack components and UPS installed, delivered to you on a shock pallet, and installed at your designated location.

- Reduce overall CapEx per store for rack IT deployment
- Reduce time to deploy a new IT rack
- One vendor responsible for the entire rack build
- Reduce cost of installation by having all components preinstalled at the factory
- Reduce multiple shipping costs associated with shipping to different entities
- Reduce internal and external technician store time to deploy racks for new stores

- Installation of rack switches, routers, and servers
- Custom design and installation structured cabling service of network infrastructure cables within the retail store
- Reduction of packing material related to IT gear at the store

Solving customer challenges

With limited or no IT staff on site, the customer needed to reduce equipment installation time in each store. Also, each location was operating independently, creating confusion when trying to address IT issues.

The solution

Schneider Electric preinstalled the required equipment in each rack at our factory, assigning specific rack locations to specific data center equipment.

Benefits to the customer

Schneider Electric was able to dramatically increase the speed of deployment. Shipping a prefabricated rack brought greater consistency and standardization within the rack. This standardization resulted in less confusion at the store. This also reduced both installation cost and time.

Schneider Electric offers a wide variety of services to help your critical equipment stay up and running with as little management as you desire. Let us know how we can help with your challenges.
