

Agile Manufacturing

Transforming operations to improve flexibility and profitability

AVEVA Insight

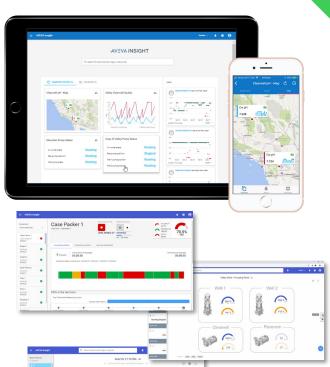

Information Management: more than 'just' a historian

The solution

- Insight is a cloud-based industrial solution for operations: Historical & Events, Autogenerated Dashboards, Process Graphics, Equipment efficiency analysis
- Make operational data accessible and empower your workforce with Insight – anywhere, anytime, any device

Insight enables users to

- Connect with critical production data anywhere, anytime, on any device
- Unlock plant performance and efficiency KPIs such as OEE and asset utilisation
- Compare across assets, plants or fleets
- Understand the performance and state of production process in visual context
- Create personalised content, dashboards and alerts
- Share and collaborate across and between teams

EcoStruxureTM Clean In Place Advisor

Unveiling sources of optimization and documenting evidence of proper cleaning

The solution

- Performance Assessment unveil current status of your CIP stations
- Clean-In-Place Advisor monitors realtime operation and document optimization possibilities and cleaning evidences

Typical benefits

- Reduced water and carbon footprint:
 - Up to 30% energy savings
 - Up to 5% water and chemical savings
- Higher productivity: up to 15%
- Improved traceability
- Typical ROI from 6 8 months

Life Is On Sch

Customer Challenge

- Full traceability of all materials of the blending process
- Tracking of all incoming raw materials used in more than 150 recipes
- Production data linked into the company's ERP system
- Gain HACCP certification
- Improve the quality of finished goods
- Reduce inventory discrepancies

The Solution

- System Platform (Powered by Wonderware)
- Historian

Customer Benefits

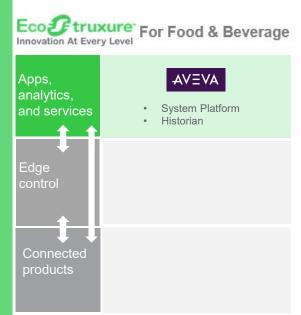

- Better insight into the blending operation: more consistent product quality from following recipes exactly
- Improved raw material stock control
- Real-time blend closure in the ERP system
- Improved management of the blending process

The Results: Life is On with... HACCP certification achieved within 3 months of going live

"Imana Foods would not have achieved HACCP accreditation without this solution in place" Link to Paper

MD. Imana Foods

Leader in the South African Soya Mince market. Producer of Packet Soups and Gravy Mix since 1984

Customer Challenge

Needed a powerful & flexible platform to create templates

The Solution

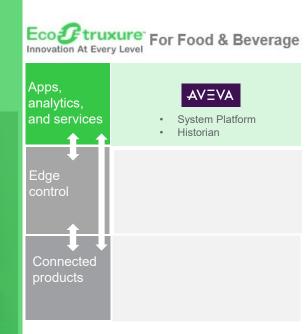

- System Platform (Powered by Wonderware)
- Historian

Customer Benefits

- Flexibility to process data quickly & record them at any time
- Quickly identify the problems that occur during production and fix them within a short time by monitoring the deviations
- Monitoring of equipment and applications allowed an increase of the OEE by improving the machine coordination

The Results: Life is On with... Increased Product Quality & traceability to endusers.

Measurable savings through CIP optimization

European Dairy Products Producer

Customer Challenge

- Reduction of Energy spend within the plant
- CIP operations focus to optimize energy spend

The Solution

- EcoStruxure Cleaning Advisor: including
- On-site assessment: 2 days
- Walkthrough audit on utilities
- Monitoring & optimization software tool
- Training of operators

Customer Benefits

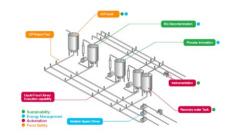

- CIP operations optimized
- 217,000€ savings per year
- Deployment of the methodology and solution to other plants

The Results: Life is On with... Payback

< 6 months

Cheese Plant. Annual Energy bill 56 GWh/year.

Average production 400 kWh/ton
