

We help on every step of the value chain

Efficient facilities

Safer, more available, and greener resources

Resilient supply chain

Manage complexity and improve visibility

Agile manufacturing

Boost manufacturing flexibility & efficiency

... enabled by transversal digital transformation capabilities

Food Safety & Traceability

Ensure compliance and increase trust across the whole value chain

Energy & Sustainability

Reduce environmental footprint and meet sustainability goals

Asset Performance

Maximize return on asset investment

Workforce Empowerment

Take teams efficiency to the next level

Digital Engineering

Cut time, cost and risks of capital project engineering

Ensure compliance and trust across the product life cycle

Manage your suppliers

Get visibility into your entire suppliers's network, check their compliance and identify your risks

Build a **Credible**Value Chain

Digitize your compliance

Automatically document evidence of proper operation using digital tools and workflows

Up to **75%** time reduction in compliance

Reinforce your Food Defense

Protect your facilities form any unauthorized physical or cyber access

Achieve Best-in-class defence in depth

Monitor downstream logistics

Track and trace products and critical control points to guarantee product safety and protect your brand image.

Up to 100% first time good quality

Achieve End to End traceability

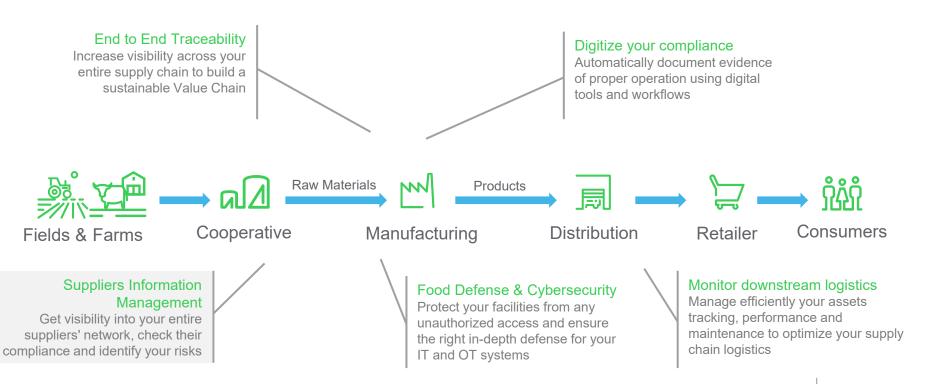

Increase visibility across your entire Value Chain, from raw materials to finished goods to improve transparency and trust for your end-consumers.

Ensure **CONSUMER** trust

Food Safety & Traceability

Ensure compliance and trust across the product life cycle

Manage your suppliers

Get visibility into your entire suppliers' network, check their compliance and identify your risks

- Increase supply chain visibility
 - Map and track supplier, facility, and products from raw material to finished good
- Manage Corporate Social Responsibility and Compliance
 - Capture certifications, documents, and assessments at any tier in the supply chain
- Monitor your supply chain in real-time
 - Analyze supplier compliance, sustainability KPIs, and supply chain risks

Suppliers Information Management

Get visibility into your entire suppliers' and raw material network, manage and monitor compliance, sustainability, CSR data and identify your suppliers at risk across the extended supply chain

- Food Supply Chain are more and more complex and interconnected
- Significant bottlenecks into Supply Chain management exposed during the COVID 19 pandemic
- Imperative to get more visibility on the whole Supply Chain and build a more resilient, credible and sustainable Value Chain.
- Supply Chain & Risk Management has been the #1 concern of Food companies during the COVID pandemic

EcoStruxure[™] Traceability Advisor – Origin Module

Cloud-based solution for Supply Chain transparency

The solution

- Cloud-based platform enabling data collection and analysis from multi-tiers suppliers
- Suppliers Mapping & Risk identification as well as supplier Scorecard
- Traceability at supplier, purchase order or batch/lot level

Business value

- Increase sales, support brand claims and assure consumer trust (e.g. sustainable sourcing)
- Mitigate supplier risks and potential for reputational damage, improve business resilience
- Centralize and streamline compliance and sustainability operations

Manage Food Safety & Traceability

Ensure compliance and increase trust across the whole value chain

- Manage your calibration process digitally to streamline operations and ease audits.
- Manage your manufacturing process in a paperless way and document automatically evidences of good manufacturing practices.
- Implement Food Defense with proper access control & cybersecurity protection.
- Track and trace raw materials and products across the whole supply chain to increase transparency and protect your brands.
- Monitor cold chain to guarantee product safety.

Let's engage in this journey!

Up to 99% quality data collection time Up to **75**% time reduction in compliance to regulations. Up to **97%** quality control time reduction.
