

# Schneider Electric Internship Program

The **FUTURE** is electric,  
and Schneider Electric is shaping it.

[se.com/au/careers](https://se.com/au/careers)

Life Is On

**Schneider**  
Electric

**Schneider Electric™ is committed to promoting respect for the natural environment.**

We provide systems and solutions to help people use energy safely, efficiently and in ways that conserve natural resources.

We are looking for passionate people to help us innovate at every level and build a future that empowers all to make the most of their energy and resources, ensuring Life Is On everywhere, for everyone, at every moment.

## We are the global specialist in energy management and automation

Our technologies enable customers around the world to manage and utilise energy in a safe, efficient and sustainable manner. We do this through a combination of secure, connected and IoT-enabled software and hardware solutions.

As one of the world's most sustainable companies, we aspire to promote a global economy that is both ecologically viable and highly productive. Our products, services and solutions support our customers in reducing CO<sub>2</sub>, energy and water usage.

- **€24.7bn** global revenue
- **142,000+** employees
- Presence in **100+** countries
- **45%** of revenue from IoT
- **5%** of revenue devoted to R&D

## Why Schneider Electric?

Our technologies ensure that Life Is On for everyone, everywhere, at every moment.

- Corporate Knight's Global 100 List – World's Most Sustainable Corporations 2023
- Work180 Endorsed Employer 2023
- Fortune's World's Most Admired Companies 2023
- Dow Jones Sustainability Index 2023
- Universum Most Attractive Employers 2022
- Financial Times Diversity Leader 2022
- Bloomberg Gender Equality Index 2022
- He for SHE

Great People make Schneider Electric a great company.

If you're interested in evolving as a professional, we're keeping a seat warm for you. Schneider Electric appreciates what makes you, you - your talent. We're a dynamic, inclusive, global company looking for passionate people to help us innovate at every level: champions of safe, reliable, efficient, sustainable and connected energy for everyone.

## The Future is Electric

By 2030 technologies like AI, blockchain, cryptocurrency and cloud services will make IT the biggest consumer of energy.\* Solar power will be cheaper than all other forms of energy, including fossil fuels, by 2030.\*

The ongoing electrification of transportation, 30% of current energy consumption, will mean that half of all the cars will be electric by 2030\*

Our  
challenge in  
the next 40  
years

Energy  
consumption  
will go up by  
**50%**

CO<sub>2</sub> emissions  
will need to be  
**cut in half**

We need to be  
**3x more**  
efficient
