

Reliable power protection and infrastructure.

TAA-Compliant Government and Education Solutions

NetShelter Rack PDU Advanced

Best-in-class intelligent rack power distribution (PDU) with up to 50% more power, twice as many outlets, and a 4-in-1 combination outlet design for fast, flexible deployment.

NetShelter Rack PDU

Our standard PDUs with industry-leading reliability, manageability, and security. Ideal for small and medium sized businesses, small-to-medium data centers, and edge computing.

Intelligent power management options:

- **Metered:** Real-time remote monitoring of connected loads; user-defined alarms that warn of potential circuit overloads before critical IT failures occur
- **Switched:** Advanced load monitoring combined with remote on/off switching control of individual outlets for power cycling, delayed power sequencing, and outlet use management
- **Metered-by-outlet:** Real-time remote monitoring of each individual outlet
- **Metered-by-outlet with switching:** Real-time remote monitoring of each individual outlet combined with remote on/off outlet switching control

Smart-UPS

Intelligent and efficient network power protection from entry level to scalable runtime. Ideal UPS for servers, point-of-sale, routers, switches, hubs and other network devices.

Smart-UPS Ultra

Ultra-high power density, on-line power protection with Lithium-ion batteries and scalable runtime options.

NetShelter SX Enclosure

Feature-rich rack enclosure optimized for easy installation, managing cables, integrating power distribution, and maximizing airflow.

NetShelter KVM Switches

Manage multiple servers with just one keyboard, monitor and mouse. Access your servers across the room or across the world.

NetShelter Rack LCD Consoles

1U rack-mountable keyboard, mouse, and LCD console to optimize rack space and monitoring.
