

DATE: 8/15/2019

TO: All Purchasers/Users of ASCO Power Technologies H and P Frame, 600-1200 Amp Transfer Switches manufactured from March 23, 2018 to November 2, 2018.

SUBJECT: ASCO Power Technologies H-Frame and P-Frame Transfer Switch Insulator

REFERENCE: PRB-218801

**OFFER SAFETY ALERT****WARNING OF POTENTIAL UNSAFE CONDITION****Deliver Immediately to Responsible Person in Your Organization**

Dear Valued Customer,

ASCO Power Technologies is committed to delivering high quality products to our customers. According to our records, your company has recently purchased a 600-1200 Amp H-Frame or P-Frame Transfer Switch (Attachment 5). You may have also received switchboards from a third-party source that contained one of these devices.

As part of our continuous quality monitoring process, we have discovered a vendor non-conformance with an insulator that may affect some of the H-Frame or P-Frame Transfer Switches manufactured between March 23, 2018 and November 2, 2018. These units have serial numbers that begin with the 7-digit numbers listed on Attachment 3 – *Affected Serial Numbers*. Refer to Attachment 1 – *Product Identification* and Attachment 2 – *Safety Information* on how to locate the serial number of the transfer switch.

Should a Transfer Switch have this nonconforming part, the potential for **PERSONAL INJURY, PROPERTY DAMAGE AND LOSS OF LIFE SAFETY POWER** may exist. Therefore, the decision was made by ASCO to offer field inspections of products potentially affected and, if nonconforming components are found, for them to be replaced.

The purpose of this letter is to inform you about the issue and to proceed directly with the identification of the affected products for further inspection and replacement of components, if required.

If you are the purchaser or owner of this product, please complete Attachment 4 and e-mail it to ASCO Power Technologies at OfferSafety@ASCOPower.com. If you have questions, please call 1-800-800-ASCO (2726) and select option 5. An electronic version of the customer response form can be downloaded at www.ascopower.com/offersafety.html.

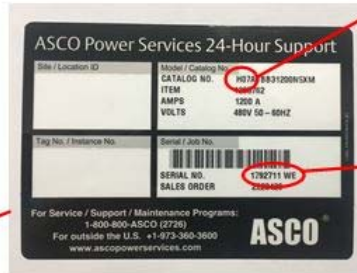

We sincerely apologize for this inconvenience. ASCO Power Technologies thanks you for your business and continued trust.

Attachment 1 - Product Identification

Locate the Service Label on the front of your Transfer Switch

All units affected by this offer safety notice will have a catalog number that begins with the letter H or P

Example Serial Number Formats:
 123456 WE
 123456-001 RE
 1234567 RE
 1234567-003 WE

All units affected by this offer safety notice will have a serial number that begins with seven digits listed on Attachment 3.

Illustration 1b – Alternate method, Identifying your product using the ASCO module ID label. This may be required if the original service label was damaged or if the switch was purchased through a third party packager.

⚠ DANGER

HAZARD OF ELECTRIC SHOCK, EXPLOSION, OR ARC FLASH
 Review Attachment 2 before proceeding with identification.
 Failure to follow these instructions will result in death or serious injury.

Locate Product ID Label, depending on Model it may be located on the upper left coil frame or the lower right phenolic base.

All units affected by this offer safety notice will have a catalog number that begins with the letter H or P

Example Serial Number Formats:
 123456 WE
 123456-001 RE
 1234567 RE
 1234567-003 WE

All units affected by this offer safety notice will have a serial number that begins with seven digits listed on Attachment 3.

Attachment 2 – Safety Information

NOTICE

Read these instructions carefully and look at the equipment to become familiar with the device before trying to install, operate, or maintain it. The following special messages may appear throughout the product documentation or on the equipment to warn of potential hazards or to call attention to information that clarifies or simplifies a procedure.

The addition of this symbol to a "Danger" or "Warning" safety label indicates that an electrical hazard exists which will result in personal injury if the instructions are not followed.

This is the safety alert symbol. It is used to alert you to potential personal injury hazards. Obey all safety messages that follow this symbol to avoid possible injury or death.

⚠ DANGER
DANGER indicates a hazardous situation which, if not avoided, will result in death or serious injury .
⚠ WARNING
WARNING indicates a hazardous situation which, if not avoided, could result in death or serious injury .
⚠ CAUTION
CAUTION indicates a hazardous situation which, if not avoided, could result in minor or moderate injury .
NOTICE
NOTICE is used to address practices not related to physical injury.

PLEASE NOTE

Electrical equipment should be installed, operated, serviced, and maintained only by qualified personnel. No responsibility is assumed by ASCO Power Technologies or Schneider Electric for any consequences arising out of the use of this material.

A qualified person is one who has skills and knowledge related to the construction and operation of electrical equipment and its installation and has received safety training to recognize and avoid the hazards involved.

Safety Instruction

⚠ DANGER
HAZARD OF ELECTRIC SHOCK, EXPLOSION, OR ARC FLASH
<ul style="list-style-type: none"> • Apply appropriate personal protective equipment (PPE) and follow safe electrical work practices. See NFPA 70E or CSA Z462. • This equipment must be installed and serviced only by qualified electrical personnel. • Perform such work only after reading and understanding all of the instructions contained in this bulletin. • Turn off all power supplying this equipment before working on or inside equipment. • Always use a properly rated voltage sensing device to confirm power is off. • Before performing visual inspections, tests, or maintenance on this equipment, disconnect all sources of electric power. Assume all circuits are live until they are completely de-energized, tested, and tagged. Pay particular attention to the design of the power system. Consider all sources of power, including the possibility of backfeeding. • Always practice lock-out/tag-out procedures according to OSHA requirements. • Circuit breaker and switch contacts must be open and all springs discharged before performing maintenance work, disconnection, or removal of a circuit breaker. • Conduct electrical testing to confirm no short-circuits were created during installation, maintenance, or inspection. • Never insert a circuit breaker into a circuit breaker compartment that is not complete and functional. • Be aware of potential hazards; wear personal protective equipment, and take adequate safety precautions. • Carefully inspect your work area, and remove any tools and objects left inside the equipment. • Replace all devices, doors, and covers before turning on power to this equipment. • All instructions in this manual are written with the assumption that the customer has taken these measures before performing maintenance or testing.
Failure to follow these instructions will result in death or serious injury.
