The mySchneider IT Partner Program overview

Partnership of the future

Diversify your business, attract new customers, and capture new market opportunities

At Schneider Electric, we are fully aware of the ongoing digital evolution and the increasing customer demands that put pressure on our partners' businesses.

Building upon our award-winning channel program's history, we're introducing the my**Schneider** IT Partner Program created to help our partners develop multiple IT competencies and diverse business models.

The my**Schneider** IT Partner Program will support the evolution of your company through a collaborative ecosystem, trainings, tools, and other resources, so you can expand to multiple IT certifications and future-proof your business.

Take your business to the next level

Grow your skills and unlock profitable revenue streams by expanding your operations across new and existing markets. Choose the certification path that suits your business needs or combine multiple and get access to a collaborative ecosystem, financial benefits, trainings, tools, and other resources, so you can futureproof your business.

About Schneider Electric

Schneider Electric

Schneider's purpose is to **empower all to make the most of our energy and resources, bridging progress and sustainability** for all. We call this Life Is On.

Our mission is to be your **digital partner for Sustainability and Efficiency**.

We drive digital transformation by integrating world-leading process and energy technologies, end-point to cloud connecting products, controls, software and services, across the entire lifecycle, enabling integrated company management for homes, buildings, data centers, infrastructure, and industries.

We are the **most local of global companies**. We are advocates of open standards and partnership ecosystems that are passionate about our shared **Meaningful Purpose, Inclusive, and Empowered** values.

APC

APC, a flagship brand of Schneider Electric, provides clean battery backup power, surge protection, and IT physical infrastructure inside and outside the traditional IT environment.

Through our APC brand products and solutions, we offer certainty in a connected world. Certainty that our reliable, integrated physical infrastructure solutions are based on the fundamental premise that your data and information should — and always will be — accessible.
