# IBM, APC and Pelco IVA

The complete solution from IBM and APC utilizes key components from APC by Schneider Electric's data center infrastructure portfolio, Pelco and IBM's Hyperconverged Systems powered by Nutanix. IBM Intelligent Video Analytics helps increase the efficiency of physical security, public safety, and infrastructure management by turning digital video into valuable information. Intelligent Video Analytics is a powerful video analytics solution that generates a rich set of metadata that describes moving objects in a stream of video or a recorded video of a monitored environment.
