Lumen

Trendy and Practical Design

Schneider
Electric

Lumen are the new products from Schneider Electric created exclusively for you, that seek an actual design without forgetting practicality.

The curved shapes and satin finishing are the hallmarks of Lumen, products aligned with the latest trends in architecture and decoration. Part of Prime Lunare range, Lumen has more than 100 items between modules and assembled products, bringing intelligence and comfort to your daily life.

New Cover Frames and Modules

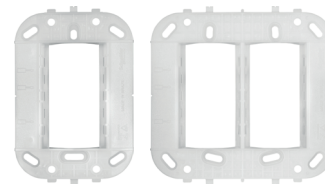

The new cover frames bring lightness and modernity by adding an actual design to practicality, which is the ideal solution for all projects. The new switches are more ergonomic and smooth, always keeping the quality.

Fixing Frames

Perfect regulation for both dry-wall and concret.

This is innovation!

Perfect integration with Prime Lunare

Energy Efficiency

You can reduce **30%** of your electricity bill with only small changes.

Use moviment detectors in areas of passage

Reduce the fan speed

Waste reduction

How about starting by reducing the amount of waste generated at your construction site? Lumen offers collective boxes for construction that include references like switches (simple module) and sockets (10A and 20A modules).

Smart Products

Efficient packaging
