Life Is 

SQUARE D[™]
by Schneider Electric

Enjoy the benefits of Integrated Equipment

Our Integrated Equipment is a portfolio of offers designed to integrate traditionally separate electrical distribution and control equipment into a single, space-saving, factory-assembled package to maximize application flexibility, reduce installation time, minimize footprint and reduce costs.

Square D Integrated Equipment

RapidSource™
Delivered. Fast. On Time.

20-30 Fewer pieces
Reduce the need to stage material

90% Faster..
Complete as many as **10 INEQ jobs** in 32 hours compared to one traditional install

Traditional method takes 30-36 hours to install one panelboard.

+40% Less space

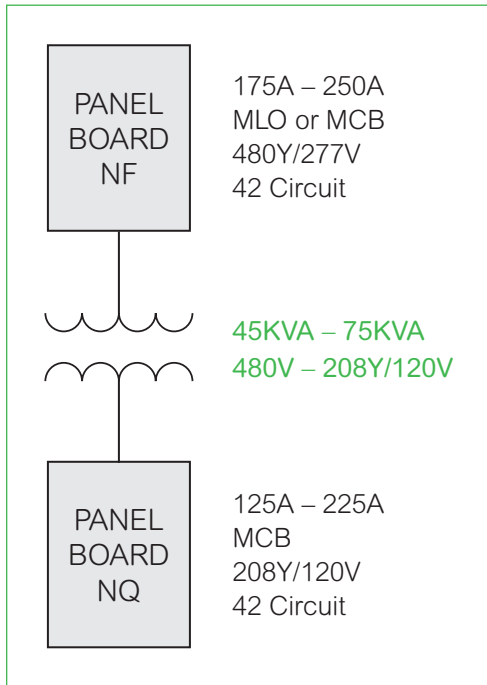

\$\$\$ More earnings for you.

90% faster than traditional stick-built electrical equipment so you can move on to your next job faster! Plus, with the ability to stack panelboards, transformers, and even building controls in one single enclosure, you can save your customers up to 40% in wall space. Prewired, with panels and transformers factory mounted, assembled, and cabled in one enclosure, integrated equipment installation can take hours instead of days.

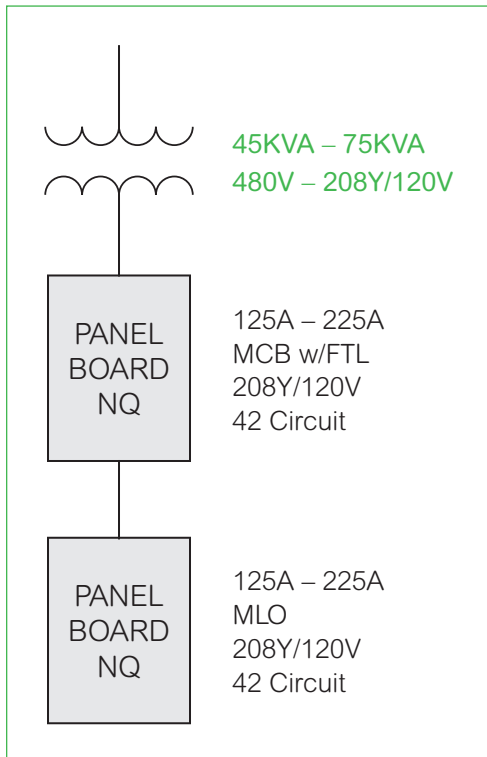

RapidSource – Integrated Equipment

With the introduction of RapidSource™ Integrated Equipment, we are able to offer our panelboard and transformer combinations at a reduced lead time. We will continue to expand this offer, making it a more responsive, faster, and more flexible solution.
