The trip current rating can be determined from the instructions given with the appropriate thermal unit selection table. The characteristics shown do not necessarily apply to equipment manufactured before the date of the referenced drawing.

Relay Design Melting Alloy
Thermal Unit Types FB3.33–FB44
40 °C ambient cold start trip time characteristics of:
Equipment AC Manual Starter
Size M-0, M-1 & M-1P
Type M & T
Series A
Qty. of Thermal Units 1, 2, or 3
When installed in:
- Hinged door and all other (larger) enclosures

The trip current rating can be determined from the instructions given with the appropriate thermal unit selection table. The characteristics shown do not necessarily apply to equipment manufactured before the date of the referenced drawing.
