

Altivar® 71W Conduit Plates Supplementary Instructions

Retain for future use.

Read This Before Discarding Package Contents

ATV71W•••N4U drives come with a mounted conduit plate that has holes punched for metric conduit sizes.

In the United States, a loose blank conduit plate is also provided with the drive so the installer can punch holes for other conduit sizes. DO NOT discard the blank conduit plate if you are using non-metric conduit.

Refer to page 25 of document 30072-453-05, *Altivar® 71W Adjustable Speed Drives Simplified Manual*, for more information about the conduit plates.
