Ordering Sensors with a 1/2"-14 NPT Conduit Entry

OsiSense™ XS Inductive Proximity Sensors, Cubic Range

Addendum for Catalogs 9006CT1007 and 9006CT1201

Retain for future use.

Ordering Sensors with a 1/2"-14 NPT Conduit Entry

Most OsiSense™ XS cubic range inductive proximity sensors are available in a 1/2"-14 NPT version. However, in the catalogs listed in Table 1, the 1/2"-14 NPT version is not given as the default.

Table 1: Affected Catalogs

To order a sensor with a 1/2" NPT conduit entry, replace P20 in the catalog number suffix with N12.

Example: XS8C4A4PCP20 changes to XS8C4A4PCN12.

NOTE: XS8C4A1NCP20 is not available with an N12 suffix, but is available with a G13 suffix (Pg 13.5 cable entry).

The catalog number references ending in P20 in the catalogs listed in Table 1 are intended for the European market. P20 specifies an M20 x 1.5 mm threaded metric conduit entry.

For products more commonly used in the North American market, complete with a 1/2"-14 NPT threaded conduit entry, change the P20 suffix to N12.
