Mounting options

Install the Current Meter in one of the following ways using the mounting brackets (provided): on the roof of the enclosure or on the inside of the enclosure, mounted on the vertical mounting rails.

HAZARD OF ELECTRIC SHOCK, EXPLOSION, OR ARC FLASH

To avoid possible electrical shock and equipment damage, failure to follow these instructions will result in death or serious injury.

HQFA

To access the Web User Interface (Web UI), enter the product name or part number in the Search field. You may receive a message that the Web page is not secure. This is your company’s password requirements. However, information transmitted over HTTPS is still encrypted. See the Security Handbook on www.apc.com for more details on HTTPS and instructions to resolve the warning.

The Current Meter is DHCP compatible. Connect the network cable to a DHCP server, see the User Guide for your Current Meter for details on other methods for configuring the TCP/IP settings.

You can mount multiple Current Meters on top of each other using additional mounting brackets (not provided).

The Display Interface

Configuring network settings and accessing the Current Meter

The Current Meter is DHCP compatible. Connect the network cable to the network port (A) and then apply power to the unit. When the status LED (B) is solid green, the network connection is valid.

• Press and hold the Control button (C) until “IP” appears on the display.

• Release the Control Button and the IPv4 address will scroll across the display twice.

To access the Web User Interface (Web UI), enter https://your IP address in your Web browser address field. You will be prompted for a user name and password. Enter the default apc for each to log in, then change the default password as directed.

• Press and hold the Control button (C) until “IP” appears on the display.

• Release the Control Button and the IPv4 address will scroll across the display twice.

• Hold for an additional five seconds to view the orientation.

• Hold for an additional five seconds to change the orientation.

• Release the Control button to the mounting rail with the screws (provided with your NetShelter™ enclosure) to the inside of the roof.

• Secure the mounting brackets attached to the Current Meter (provided with your NetShelter™ enclosure) into the vertical mounting rail.

• Route the power cords to the top of the enclosure and through the roof.

• Attach the two mounting brackets to the back of the Current Meter with the screws (provided).

• Install the cage nuts (provided with your NetShelter™ enclosure) into the vertical mounting rail.

• Attach the two mounting brackets to the current Meter and the screws (provided).

DANGER

Installation and removal of electrical equipment must be performed by qualified personnel only.

Two-Year Factory Warranty

This warranty applies only to the products you purchase for your use in accordance with this manual.

Terms of warranty

APC by Schneider Electric warrants its products to be free from defects in materials and workmanship for a period of two years from the date of purchase. APC by Schneider Electric will repair or replace defective products covered by this warranty. This warranty does not apply to equipment that has been damaged by accident, negligence or misapplication, has been altered or modified in any way, Repairs or replacement of a defective part or product does not extend the original warranty period. Any parts furnished under this warranty may be new or factory-remanufactured.

Non-transferable warranty

This warranty extends only to the original purchaser who must have properly registered the product. The product may be registered at www.apc.com.

Exclusions

APC by Schneider Electric shall not be liable under the warranty if the testing and examination disclose that the alleged defect in the product does not exist or was caused by end-user’s or any third person’s misuse, negligence, improper installation or handling. Further, APC by Schneider Electric shall not be liable under the warranty for any unauthorised attempts to repair or modify or inadequate electrical voltage or connection, inappropriate operational conditions, corrosive atmosphere, repair, installation, exposure to the elements, Acts of God, fire, theft, or installation contrary to APC by Schneider Electric recommendations or specifications or in any event if the APC by Schneider Electric serial number has been altered, defaced, or removed, or any other cause beyond the range of the intended use.

There are no warranties, expressed or implied, by operation of law or otherwise, of products sold, serviced or furnished under this Agreement or in connection herewith. APC by Schneider Electric disclaims all implied warranties of merchantability, satisfaction and fitness for a particular purpose.

The warranties set forth above constitute APC by Schneider Electric’s sole liability and purchaser’s exclusive remedy for any breach of such warranties. APC by Schneider Electric warrants extend only to purchasers and are not extended to any third parties.

In no event shall APC by Schneider Electric, its officers, directors, affiliates or employees be liable for any form of indirect, special, consequential or punitive damages, arising out of the use, service or installation of, the products, whether such damages arise in contract or tort, irrespective of fault, negligence or strict liability or whether APC by Schneider Electric has been advised in advance of the possibility of such damages. Specifically, APC by Schneider Electric is not liable for any costs, such as lost profits or revenue, loss of equipment, loss of use of equipment, the software, loss of data, costs of substitutes, claims by third parties, or otherwise. No representative, employee or agent of APC by Schneider Electric is authorized to add to or vary the terms of this warranty. Warranty Terms may be modified. If at all, only in writing signed by an APC by Schneider Electric officer and legal department.
