# Add a touch of style to your control panel

Upgrade the aesthetics of your Harmony XB4, XB5, and XB7 devices with the new Harmony flush mounting kit

What if you could upgrade your control panel to a cleaner and more stylish look without major expense or difficulty? With the new Harmony flush mounting kit the transformation is quick, easy, and cost-effective.

This new accessory enables you to improve the aesthetic of your panels without having to replace your current control devices. Available in both plastic and metal, the flush mounting kit is compatible with Harmony pushbuttons, selectors, and pilot lights.

Life Is On

Schneider Electric

The Harmony flush mounting kit makes it easy to give your control panels
a makeover. It offers:

- **Quick and easy installation** in a 30.5 mm hole, compatible with 22 mm devices

- **A cost-effective solution**, as the control devices and the operating modes of the machine do not change

- **A complete flush mounting kit**, for plastic and metal Harmony devices

- **Easy integration of labeling**, thanks to a model with a legend holder

- **A stylish aesthetic**, bringing a new look to your control panel at a low cost

- **Flexibility to suit a wide range of applications**, including packaging, food and beverage, material working, and material handling

Quick and easy installation
