

Flexible support that reduces the risk of downtime, improves maintenance budgeting and extends asset life

For Industrial Operators, operating and maintaining increasingly complex Industrial Automation assets can be a challenge, especially with ever-increasing constraints on budget and available skills.

Our Advantage Service Plans help to overcome these challenges, while fitting within your constraints. With a carefully chosen set of support and service deliverables, you will receive the best of our expertise and capabilities to supplement your efforts in reducing downtime, enhancing personnel productivity and maximizing asset life. Its scalability and modularity ensure you have the flexibility to tailor the plan to suit your specific needs.

Our Capabilities include:

Fourteen well-equipped advanced technical support centers around the world

Features:

- Services that bring our capabilities and the latest software enhancements.
- Offered in Customer FIRST (Technical support program)
- Optional services for further customization.
- Scalable from Simple to Complex architectures.

What our customers are saying:

"The tech that I was talking to was very knowledgeable, and he knew exactly what I was looking for, really before I even described my problem."

- Town of Gilbert

"Every time I call, the person that I am dealing with is very experienced, and they typically answer my question in that one response. I don't have to call back, I don't have to continue on with it."

- City of Phoenix

Deliverables	Service Description
Included Services	
Technical Phone Support	Ensures your specific problem gets the right level of attention, for the right resolution and at the right priority, through: • Priority technical assistance within Normal Business Hours (NBH) • Backed up by a team of Schneider Electric's Global Experts
Support Portal	Self-assist support portal to help you make the most of your system with: • Searchable Knowledge base of technical FAQs & resolutions. • Readily available product documentation. • Software downloads.
Software Entitlements	Keep your software updated to take advantage of its latest enhancements, while keeping pace with Microsoft Windows evolutions. Included are: • Access to major & minor versions of EcoStruxure Control Expert. • Any applicable license updates.
Lifecycle Report / Notifications	To keep your overall system current and maximise its life, a critical input is to know its current life-cycle status. With Advantage Service Plan, you are assured that we will keep you updated on this for Modicon platforms.

24/7 support	24/7 technical phone support.
Modernisation Support	This optional service helps mitigate the risks associated with modernisation projects, with its included 8 hours of technical assistance services for legacy application conversion and hardware upgrade.
Cybersecurity assessment	Today, Cybersecurity threats are an increasing cause for downtime. With this optional service, leverage our vendor agnostic team of IT & OT experts, to determine your plant's current Cybersecurity baseline and any applicable remediation plan.
Spare Parts Management	Helping you to better manage your spares inventory, with this option we shall store required spare parts in our premises, to cover your needs, and supply them as necessary and agreed.

^{*} Offered in Customer FIRST service contract
