EcoStruxure Service Plan

A modular digital plan

EcoStruxure Service Plan is a personalized service contract for your connected and non-connected assets. It provides both onsite and off-site asset management, monitoring, diagnostics and preventive and predictive maintenance services.

This means we perform the right maintenance at the right time to help your business continuity and contribute to reduce your electrical failure and fire risk.

Benefits

- Simplified operations with on-line asset condition monitoring and alarming
- Help prevent fires with continuous Thermal Monitoring
- Increased asset uptime with predictive analytics, remote and on-site manufacturer expertise
- Faster issue resolution with 24/7 remote technical assistance
- Optimized operational budget with a condition-based maintenance strategy
- Improved asset lifetime with asset management consultancy
