

Wiser Energy Home Power Monitor with Load Control

Real-time, app-based energy monitoring to save you money

The Wiser Energy™ home power monitor helps you manage the electricity usage in your home, from the circuit to the plug level, all from your fingertips using the Square D™ edition of the Sense app. This gives you meaningful insight so you can take control of your energy usage and learn how you can reduce your electric bill.

- Get 24/7 real-time access to see your home energy usage, track savings, set energy goals, and find new ways to reduce your electricity costs
- Easy installation in your home's electrical panel
- Monitor and manage what's powered on in your home at any time, from anywhere with the Square D edition of the Sense app
- Monitor and control your home with Square D switches, dimmers, and outlets by enabling the Wiser Home integration in the Square D edition of the Sense app
- Users can use one app for energy monitoring and device control

Works with a growing list of smart devices like Google Assistant, Square D connected wiring devices, Wemo® Insight,™ and TP-Link Kasa™ smart plugs

Get it from Google Play

Download on the App Store

Features include:

- Circuit-level control using Wiser™ Control Relays for backup power and advanced load management
- Integrates with leading inverter manufacturers
- Enhanced connectivity options through an integrated ethernet port

Wiser Control Relays

More control to help maximize energy saving

Enjoy enhanced home energy management with a modular and scalable system. Wiser Control Relays give you current monitoring and control at the circuit level, so you can take energy management into your own hands.

Relay (120V)*

Relay (240V)*

- Minimize energy costs in a dynamic energy market by leveraging app-based data to decide which circuits turn on based on time of use in order to increase energy savings
- Monitor and control power usage to understand and manage your energy consumption
- Easy to maintain — swap out only the individual impacted relay without having to replace the entire load center**
- Automate which loads to power on in the event of a power outage and extend the life of any battery backup system

*requires WISEREMZ or WISEREMPVZ **Contact a licensed electrician to swap out relay
