GANGBUSTERS™

CLIPSAL®
every room, every home

Go Gangbusters™ for over-sized plugs!

These days plugs, chargers and power packs come in all sorts of shapes and sizes. And it seems that in a world of increasing technology, we now have many more high tech products and appliances than we used to. This has created a power point space problem in kitchens, bathrooms, studies and anywhere else in the home or office where multiple, or over sized plugs are used.

Many over-sized or odd shaped power packs or chargers, tend to take up too much room on traditional power points, reducing the amount of space you have for normal plugs. The good news is Clipsal already has the perfect solution to this increasingly common problem - Clipsal Gangbusters™. To make life even easier, Gangbusters™ comes pre-packaged in twin or quad outlet options (2015H2 and 2025H2) or you can make up your own solution by simply purchasing one of the 2000 Series multigang surround products and your own power point configuration. When planning your client's electrical needs, be sure to discuss the option of Gangbusters™, and ask the following questions:

- Which rooms would you have appliances with oversized plugs or power packs, eg: electric shavers, mobile phone chargers, Christmas tree lights, etc.
- Do you have situations where plugs interfere with or cover up spare outlets or power points?
- Are there any areas of your home or office where you find you need to use power boards or unplug appliances to make room for others?
- In which areas of your home or office do you use the most electrical appliances?
- Do you have a large number of electrical appliances in your kitchen that you would like to have plugged in at all times, eg: kettle, toaster, coffee machine, microwave, etc.

If your clients consider these questions, then they may find that Gangbusters™ could be the best option for some areas of the home or office. If the pre-packaged Gangbusters™ solutions aren't quite what you're looking for, then 2000 Series Multigang Surrounds can be custom configured in a number of ways, both horizontally and vertically, depending on your client's needs.

**SERIES
2000**

Plan your needs

Choosing the right Gangbusters™ configuration now, means your clients will always have ample room for any oversized plugs and power packs, as well as their regular oversized plugs. Start thinking about those areas of the home or office where Gangbusters™ or multigang surrounds would be the perfect solution.

Ask your clients to consider how much space they may require for oversized plugs and adaptors. There's a Gangbusters™ or multigang solution to suit everyone!

Customise your surrounds

If the pre-packaged Gangbusters™ solutions don't quite suit your needs, then you can easily customise your own configuration of multigang surround with specific 2000 Series power points. The examples shown below are just a few of the vast number of options you could consider:

2015H2

2025H2

2000 Series Multigang Range

2000H2

2000H3

2000/2

2000/3

2000/4

All 2000 Series Gangbusters™ or Multigang Surrounds feature:

- a choice of colours to mix and match with gridplates and contrast or blend with any décor
- a design that neatly conceals all mounting holes
- a durable high gloss finish for easy cleaning
- a clever clip on/clip off design that enables surrounds to be easily removed when redecorating to conceal overpainting or untidy cut marks when wallpapering
- a spacing gauge to assist with mounting

Cat. No. Gang Busters™ Range
