

Push for the future in wall switches

The Revolutionary 30PB Push Button Switch

Finally its arrived! Clipsal has redefined the wall switch as we know it with the introduction of the 30PB push button switch. The 30PB is a simple push button mechanism that will easily fit into all standard Clipsal wall plates including 2000 Series, C2000 Series, Slimline, Eclipse Standard Range and Metal Plate.

The 30PB push button mechanism creates a new look and feel, offering a smooth and reliable push button action in preference to standard rocker wall switches.

Ask your electrician how you can have the benefits of push button switching in your home without the hassle of changing your existing switch plates.

Features and benefits for the user include:

Smooth reliable push button switching

Easy to clean

Standard switching at the push of a button

Low profile for a minimalist look

Standard size button for easy location

Suitable for control of energy saving and incandescent lamps.

30PB Innovation Benefits The Electrician

Clipsal's 30PB Push Button Mechanism suits 30 Series apertures and provides a whopping 20A/16AX switching capacity as standard. The 30PB not only provides your customers with the latest innovation in push button switch operation, but also incorporates an easy to install retrofit solution. This will save you valuable time and in turn add value to your business.

Electrician features and benefits:

250V a.c, 20A/16AX

Retrofit option for 30M rocker switches

Suitable for fluorescent loads up to 16AX

Can be clipped into Clipsal plates including Standard Range, 2000 Series, C2000 Series, Slimline, Eclipse and Metal Plate

Shrouded in-line terminals provide protection during installation

One way/two way switching facility with loop terminal.

30PB Mechanism
