NEW PRODUCT DATA AND APPLICATION SHEET

Terminal size and uniform depth has been increased to maximise ease of use.

Terminal and mounting screw heads are PowerHead #1 Square/ #2 Phillips for greater drivability.

The P (RCD ON) Socket features a printed amber module to comply with medical installation requirements.

The ID Socket features a large identification module that provides protection for printed paper with a clear push-on cover.

APPLICATIONS

Circuit Identification is becoming increasingly popular in commercial situations as technology and systems become the way of life. RCD ON identification is the standard in many institutions, and is being practised more and more in general household and commercial situations. It provides a clear indication for safety and peace of mind.
