

# Festoon Lampholders

## Installation Instructions

Festoon lampholders are designed for decorative lighting and are suitable for use under any normal weather conditions, providing the instructions are adhered to.

### Attention to the Installing Electrician

1. If used in or between trees, across streets or in any situation where cable is subject to stretching, strain-wires should be used.
2. The most durable results are obtained when the holders are installed facing downwards.
3. Festoon lighting must be installed in accordance with AS/NZS3000 - Clause 4.5.1.3 and the maximum load must not exceed 16 Amp.

### Note:

Not to be used in locations subject to extreme weather conditions.
