622T1

622T1 including ZB5-AG4

622T2

BOX QUANTITY 10

OUTER QUANTITY 100

FEATURES

Standard 600 Series plates, suits Cat 144 Flush Box (84mm centres).

Clip on cover plates.

Able to incorporate the Telemecanique range of Harmony 22mm key locks, push buttons, and indicators.

Combines two leading brands, and opens the opportunity for increased amounts of cross selling.

Available in White Only

APPLICATIONS

Opens up the Telemecanique range to be mounted into commercial and potentially residential situations using the 600 Series. A common application will be the availability of key lock control switches in the 600 Series style of plate. A frequent request in the past now has a solution.

COMMENTS

The existing offer includes the Cat 568 range of key lock switches available in the 500 Series style. This plate option opens up a Telemecanique key lock option this into the 600 Series.
