TeSys T
Base and extension module
Product End-of-Life Instructions – EoLI

Product overview

Product Range: TeSys T
Marketing Model/Name:

- a LTMR motor management controller with:
  - built-in current transformers up to 100 A
  - inputs/outputs
  - a communication interface
- a LTME extension module with:
  - additional functions
  - additional inputs

Size: $H \times L \times D \text{ in mm} = 61 \times 136 \times 122.5$
Weight in g = 883.3

Purpose
The product family must be disposed according to the legislation of the country. This document is intended for use by end of life recyclers or treatment facilities. It provides the basic information to assure an appropriate end of life treatment for the components and materials of the product.

Operations recommended for the end of life treatment

There are several steps to process the products at the end of life so as to recover components, materials or energy:

Reuse → Separation for special treatment → Other dismantling → Shredding

CAUTION: The product contains 4 PCBAs which are recommended to be treated separately during the End of Life operations.
The components of the products that optimize the recycling performances are listed, identified and located hereunder.
