Product End-of-Life Instructions

Product Range: Circuits Breakers GV3P
Marketing Model/Name: (List of multiple models if applicable)
The End of Life Instruction (EOLI) covers the range of GV3P thermal-magnetic and GV3L magnetic circuit breakers. This document covers the following generic references for the TeSys GV3 range:
- GV3P13 to GV3P65
- GV3L25 to GV3L65

Purpose:
The product family must be disposed according to the legislation of the country. This document is intended for use by end of life recyclers or treatment facilities. It provides the basic information to assure an appropriate end of life treatment for the components and materials of the product.

Note:
This product family is not in the scope of EU directive 2002/96/EC, Waste Electrical and Electronic Equipment (WEEE).

Size in mm:
H x L x D in mm: 132 x 55 x 136

Weight in kg: 0.96 kg
Operations recommended for the end of life treatment

There are several steps to process the products at the end of life so as to recover components, materials or energy: Reuse → Depollution → Dismantling → Shredding.

The components of the products that optimize the recycling performances or that lead to some hazards are listed, identified and located hereunder.

This product contains components made of bromide materials which are recommended to be treated separately during the End of Life operations.
