Building Control
Presence movement detector 40-300W 2 wire, Presence movement detector 10A 3 wire

Product End-of-life Instructions

The End of Life Instruction (EOLI) covers the entire range of Presence movement detector 40-300W 2 wire, Presence movement detector 10A 3 wire

Marketing Model/Name:
ODACE PIR Presence movement detector 40-300W 2 wire, Presence movement detector 10A 3 wires

Size H x L x D:
85 x 85 x 45 mm

Weight:
Between 100 and 120 for 2Wire version
Between 80 and 100 for 3Wire version
Product End-of-life Instruction

Purpose

The product family must be disposed according to the legislation of the country. This document is intended for use by end of life recyclers or treatment facilities. It provides the basic information to assure an appropriate end of life treatment for the components and materials of the product.

Note

This product family is in the scope of EU directive 2002/96/EC, Waste Electrical and Electronic Equipment (WEEE).

Operations recommended for the end of life treatment

There are several steps to process the products at the end of life so as to recover components, materials or energy: Reuse → Depollution → Dismantling → Shredding.

The components of the products that are recommended to be depolluted (according to the WEEE 2002/96/EC list) or that are recommended to be reused or dismantled so as to improve the material recovery or that lead to some hazard are listed, identified and located hereunder.
