Size: H x L x D in mm = **95 x 45 x 77**

Weight in g: **545.75**

Purpose

The product family must be disposed according to the legislation of the country. This document is intended for use by end of life recyclers or treatment facilities. It provides the basic information to assure an appropriate end of life treatment for the components and materials of the product.

Note:

This product family is in the scope of European Union directive 2012/19/EU on Waste Electrical and Electronic Equipment (WEEE).

Operations recommended for the end of life treatment

There are several steps to process the products at the end of life so as to recover components, materials or energy :

Reuse → Separation for special treatment → Other dismantling → Shredding

CAUTION: The product contains 1 plastic part with brominated FR which are recommended to be treated separately during the End of Life operations.

Product End-of-Life Instructions – EoLI

The components of the products that optimize the recycling performances are listed, identified and located hereunder.

1. Plastic part with brominated FR

Recommendation	Number on drawing	Components	Weight (in g)	Comment
Special treatment	1	Plastic part with brominated FR	15	

EoLI achieved with Schneider-Electric TT03 V5 procedure
