Product End of Life Instructions

SWITCH TI TIM 20A 2P+RED LIGHT
End of Life Instructions

There are several steps to treat the products at the end of life so as to recover components, materials or energy: Reuse Depollution Dismantling Shredding.

The components of the products that should be depolluted (according to the WEEE 2002/96/EC list) or that should be reused or dismantled so as to improve the material recovery or that lead to some hazards are listed, identified and located hereunder.

Product description

Manufacturer identification | Schneider Electric Industries SAS
Brand name | Schneider Electric
Product function | The main function of the 20/32 A SWITCH product is the opening and closure in charge of a circuit already protected against the overload. Provides also the severing function.
Product reference | A9S61220
Additional similar product references | A9S61220
Total representative product mass (g) | 68
Representative product dimensions | 77mm x 75.5mm x 18mm
Date of information release | 10/2016
### Legal information

This product family is in the scope of European Union directive 2012/19/EU on Waste Electrical and Electronic Equipment (WEEE). The product family must be disposed according to the legislation of the country. This document is intended for use by end of life recyclers or treatment facilities. It provides the basic information to assure an appropriate end of life treatment for the components and materials of the product.

### Recyclability potential
