Product description

Manufacturer identification | Schneider Electric Industries SAS
Brand name | Schneider Electric
Product function | The main purpose of the Reflex iC60N is an integrated control circuit breakers which combine the following main functions in a single device:
1. Remote control by latched and/or impulse type order according to the 3 operating modes to be chosen by the user.
2. Circuit protection against short-circuit currents, overload current and disconnection in the industrial sector.
Product reference | A9C61240
Additional similar product references | A9C61240
Total representative product mass (in grams) | 481.32
Representative product dimensions | 84mm x 81mm x 77mm
This product family is in the scope of European Union directive 2012/19/EU on Waste Electrical and Electronic Equipment (WEEE). The product family must be disposed according to the legislation of the country. This document is intended for use by end of life recyclers or treatment facilities. It provides the basic information to assure an appropriate end of life treatment for the components and materials of the product.

Recyclability potential: 44%
