Product End-of-Life Instructions

Product Range: **Multi 9**
Marketing Model/Name: (List of multiple models if applicable)
**NG125 TETRA; NG125 TRI**

**Purpose:**
The product family must be disposed according to the legislation of the country. This document is intended for use by end of life recyclers or treatment facilities. It provides the basic information to assure an appropriate end of life treatment for the components and materials of the product.

**Note:**
This product family is not in the scope of EU directive 2002/96/EC, Waste Electrical and Electronic Equipment (WEEE).

Size (in mm): **107 x 102 x 76**

Weight (in g):
Between **1020 g and 1080 g**
Operations recommended for the end of life treatment

There are several steps to process the products at the end of life so as to recover components, materials or energy:

- Reuse
- Separation for special treatment
- Other dismantling
- Shredding.

The components of the products that optimize the recycling performances are listed, identified and located hereunder.

Component which must be cleared of pollution:
Dismantle process:

→ Remove screw and locking clip

→ Disassemble subassembly and component:
→ Remove rivet of subassembly:

→ Remove screw of subassembly:

→ Disassemble all component:
