Product End-of-Life Instructions

Phaseo

Product Range
Redundancy module
Marketing Model
ABL8 RED24400

Size in mm:
H x L x D: 146 x 146 x 45

Weight (excluding packaging) in g:
471.9
## Operations recommended for the end of life treatment

There are several steps to process the products at the end of life so as to recover components, materials or energy:

- **Reuse** → **Separation for special treatment** → **Other dismantling** → **Shredding**

The components of the products that optimize the recycling performances are listed, identified and located hereunder.

These products contain below printed circuit boards (PCBs), which are recommended to be treated separately during the End of Life operations.

### Recommended Components
