Product End-of-Life Instructions

Product Range: SM6
Modular units
SF6 insulated switchgear up to 24 kV
Marketing Model/Name: SM6 Modular units SF6 insulated switchgear up to 24 kV

Purpose:
The product family must be disposed according to the legislation of the country. This document is intended for use by end of life recyclers or treatment facilities. It provides the basic information to assure an appropriate end of life treatment for the components and materials of the product.

Note:
This product family is not in the scope of EU directive 2002/96/EC, Waste Electrical and Electronic Equipment (WEEE).

Size:

H x L x D in mm: 1600 x 350/500 x 930 for IM & QM
H x L x D in mm: 1600 x 625/750 x 930 for DM1-A & DMV-A

Weight in kg
Between 250 and 600 without battery
Operations recommended for the end of life treatment

There are several steps to process the products at the end of life so as to recover components, materials or energy:
- Reuse
- Separation for special treatment
- Other dismantling
- Shredding.

The components of the products that optimize the recycling performances are listed, identified and located hereunder.
