Product End-of-Life Instructions

Product Range: EASERGY Flair 2xD

Purpose:
The product family must be disposed according to the legislation of the country. This document is intended for use by end of life recyclers or treatment facilities. It provides the basic information to assure an appropriate end of life treatment for the components and materials of the product.

Note:
This product family is not in the scope of EU directive 2002/96/EC, Waste Electrical and Electronic Equipment (WEEE).

Size:
H x L x D (mm): 48 x 96 x 100

Weight:
Around 180g
Operations recommended for the end of life treatment

There are several steps to process the products at the end of life so as to recover components, materials or energy:

- Reuse
- Separation for special treatment
- Other dismantling
- Shredding.

The components of the products that optimize the recycling performances are listed, identified and located on the schematics below.
