Product End-of-Life Instructions

Product Range: PowerPact™ L-Frame Molded Case Circuit Breaker with Micrologic™ Trip Unit

Marketing Model/Name: The End of Life Instruction (EoLi) covers the entire range:
- Current rating from 250A to 600A
- 3 or 4 poles
- Fitted with the Micrologic Trip Unit

Purpose:
The product family must be disposed according to the legislation of the country. This document is intended for use by end of life recyclers or treatment facilities. It provides the basic information to assure an appropriate end of life treatment for the components and materials of the product.

Size in inches (mm):
13.4in x 5.51in x 4.33in (340mm x 140mm x 110mm)

Weight in lbs (kg):
Between 14 lbs (6.35 kg) and 10 lbs (9.07 kg) without battery
Operations recommended for the end of life treatment

There are several steps to process the products at the end of life so as to recover components, materials or energy:

- Reuse
- Separation for special treatment
- Other dismantling
- Shredding.

The components of the products that optimize the recycling performances are listed, identified and located hereunder.
