Product End-of-Life Instructions
Sepam 80 base units & mounted accessories
Product overview

Product Range: Sepam 80
Marketing Model/Name: Sepam 80 base units & accessories mounted on those
Size: H x W x D in mm: 222 x 264 x 210.5
Weight: Between 2.5kg & 5kg depending on options mounted on base unit

Purpose

The product family must be disposed according to the legislation of the country. This document is intended for use by end of life recyclers or treatment facilities. It provides the basic information to assure an appropriate end of life treatment for the components and materials of the product.

Operations recommended for the end of life treatment

There are several steps to process the products at the end of life so as to recover components, materials or energy:

Reuse → Separation for special treatment → Other dismantling → Shredding

⚠️ DANGER ⚠️

HAZARD OF ELECTRIC SHOCK, ELECTRIC ARC OR BURNS

- Before performing any intervention:
  - Turn off all power supplying the protection relay and the equipment in which it is installed before working on it.
  - Always use a properly rated voltage sensing device to confirm that power is off.
  - Replace all devices, doors, and covers before turning on power to this equipment.
  - Apply appropriate personal protective equipment and follow safe electrical work practices. See local regulation.

Failure to follow these instructions will result in death or serious injury.
The components of the products that optimize the recycling performances are listed, identified and located below.
