Product End-of-Life Instructions
2-WIRE RS-485 INSULATED REPEATER
Product overview

Product Range: Enerlin’X

Marketing Model/Name:
- In the ULP connection System
- An isolated Modbus Repeater Module
- Monitor or control electrical values, alarm status, open/close signals

Size: $H \times L \times D$ in mm $= 18 \times 105 \times 73$

Weight in g $= 106.8$

Purpose

The product family must be disposed according to the legislation of the country. This document is intended for use by end of life recyclers or treatment facilities. It provides the basic information to assure an appropriate end of life treatment for the components and materials of the product.

Operations recommended for the end of life treatment

There are several steps to process the products at the end of life so as to recover components, materials or energy:

- Reuse → Separation for special treatment → Other dismantling → Shredding

CAUTION: The product contains 1 PCBA and 2 plastic parts with brominated FR which are recommended to be treated separately during the End of Life operations.
The components of the products that optimize the recycling performances are listed, identified and located hereunder.
