Product End-of-Life Instructions

ATV320 15kW 200V 3ph
Compact control variable speed drive
Product End-of-Life Instructions – EoLI

Product overview

Product Range: ATV320 15kW 200V 3ph compact control
Marketing Model/Name: ATV320D11M3C, ATV320D15M3C, ATV320D11S6C, ATV320D15S6C
Size: H x L x D in mm = 330 x 180 x 198
Weight in g = 7010.23

Purpose

The product family must be disposed according to the legislation of the country. This document is intended for use by end of life recyclers or treatment facilities. It provides the basic information to assure an appropriate end of life treatment for the components and materials of the product.

Note:

This product family is in the scope of European Union directive 2012/19/EU on Waste Electrical and Electronic Equipment (WEEE).

Operations recommended for the end of life treatment

There are several steps to process the products at the end of life so as to recover components, materials or energy:

Reuse → Separation for special treatment → Other dismantling → Shredding

CAUTION: The product contains 7 printed circuit boards, 7 External cables which are recommended to be treated separately during the End of Life operations. Also electrolytic capacitors which may cause electrical short during the end of life treatment process. BEFORE SERVICING, REMOVE ALL POWER, WAIT 15 MINUTES. The components of the products that optimize the recycling performances are listed, identified and located hereunder.
control block

1. TERMINAL PCBA

2. INSULATION SHEET

3. CABLE

4. SUPPORT HOUSING
The components of the products that optimize the recycling performances are listed, identified and located hereunder.
