SpaceLogic MP-C-36A Controller

End of Life Instructions

Recommendation	Number on drawing	Component / Material	Weight (in g)	Comment
To be depolluted	1	Electronic Board (Communication) > 10cm ²	100,45	
To be dismantled	2	Plastic parts	210	PC

Product description

Manufacturer identification	Schneider Electric Industries SAS
Brand name	Schneider Electric
Product function	<p>The SpaceLogic MP-C Controller is a multi-purpose, fully programmable and IP based field controller with a flexibility that is ideally suited for plant room HVAC control and a wide range of HVAC applications. It can operate as stand-alone controller or be a part of the EcoStruxure Building Management System.</p> <p>(This document describes the different stages of the product, from manufacturing to its end of life, for example the manufacturing stage includes the production and transportation of the product and its packaging through the entire process and to the last logistics platform. This product is assembled in Timisoara, Romania and distributed globally. For its end of life optimization, any dismantling or separation of parts required is carried out as mentioned in the document and in accordance with EU regulations, viz. WEEE.)</p>
Product reference	SXWMPC36A10001

Total representative product mass	547 g
Representative product dimensions	122mm x 234mm x 64mm
Accessories	No
Date of information release	11-2024

Additional information

Legal information

This product family is in the scope of European Union directive 2012/19/EU on Waste Electrical and Electronic Equipment (WEEE). The product family must be disposed according to the legislation of the country. This document is intended for use by end of life recyclers or treatment facilities. It provides the basic information to assure an appropriate end of life treatment for the components and materials of the product.

Recyclability potential

0%

Recyclability rate has been calculated based on REEECY'LAB tool developed by Ecosystem, for components/materials not covered by the tool, data from the "ECO'DEEEE recyclability and recoverability calculation method" was taken. If no data was found a conservative assumption was used (0% recyclability).
