Quick Start Guide

1. Read these notices first

**DANGER**

**HAZARD OF ELECTRIC SHOCK, EXPLOSION, OR ARC FLASH**
- It is illegal for persons other than an appropriately licensed electrical contractors or other persons authorized by legislation to work on the fixed wiring of any electrical installation.
- To comply with all safety standards, the product must be used only for the purpose described in this instruction and must be installed in accordance with the wiring rules and regulation in the location where it is installed.
- There are no user serviceable parts inside the product.

Failure to follow these instructions can result in death or serious injury.

**NOTICE**

**EQUIPMENT DAMAGE HAZARD—HANDLING**
- When handling the touch panel, grasp the frame—do not lift the touch panel by placing your hand or fingers on the LCD screen.
- Make sure the power source is disconnected prior to transportation.
- Do not knock or drop the touch panel during installation or transportation.

Failure to follow these instructions can result in equipment damage.

**NOTICE**

**EQUIPMENT DAMAGE HAZARD—INSTALLATION**
- Operate the touch panel according to instructions in this document and the Touch Panel Installation Guide.
- Install the touch panel away from extreme hot or cold sources, dust, water or excessive moisture, and keep out of direct sunlight.
- Do not use this product for any other purpose than specified in this document and the Touch Panel Installation Guide.
- The touch panel is for indoor use only—do not install outdoors or in an exposed/open air location.

Failure to follow these instructions can result in equipment damage.

**NOTICE**

**EQUIPMENT DAMAGE HAZARD—OPERATION**
- Operate the touch panel according to instructions in this document and the Touch Panel Installation Guide.
- If turning off the touch panel by detaching the power cable or PoE cable, wait for 6 seconds before re-attaching the power cable or PoE.

Failure to follow these instructions can result in equipment damage.

**NOTICE**

**PRODUCT SECURITY—INSTALL LOCATION**
- This device is not recommended for installation in public areas or where unintended users may have access to the rear I/O ports on the device.
- Additional precautions must be taken if installing in public areas by the means of appropriate protection of the rear panel on the device.
- Schneider Electric does not provide any security means to avoid the possibility of any malicious activity by unintended users of the device.

Failure to follow these instructions can expose security vulnerabilities of the device.

**NOTICE**

**PRODUCT SECURITY—CONFIGURATION AND USE**
- The touch panel is password protected.
- Change the password during the initial configuration.
- Ensure authorized user access only.
- Ensure only SE authorized updates are installed on the device.

Failure to follow these instructions can expose security vulnerabilities of the device.

---

2. More information

Download the 5000ETP10W Touch Panel Installation Guide (PDF):

https://download.schneider-electric.com/files7p_Doc_Ref/GDE1467801

3. Package contents

- Touch panel
- Wall mount frame
- Touch panel mounting plate
- Wall panel desk stand
- 4× mounting screws + washers
- Micro SD card securing plate + mounting screw
- Cable securing plate + mounting screw
- Wall panel desk locking screw
- 4× mounting screws
- 4× mounting screws (use when installing the 5000ETP10WB Wall Box into a solid wall—see the Wall Box Installation Guide)
- Audio out port
- HDMI port
- USB port
- Micro SD card port
- Ethernet port (for PoE: 802.3af)
- Power connector (12 V DC ±5%, 1.5 A, right-angle connector type A 2.5 mm ID, center positive (+))

4. Examples of unsuitable locations

- The touch panel is for indoor use only—do not install outdoors or in an exposed/open air location.

---

5. Installing the touch panel

OPTION 1: Using the supplied wall mount frame

Drill suitable pilot holes

- Use the wall mount frame to mark hole centers for fixing.
- Secure the wall mount frame using appropriate fasteners.

---

OPTION 2: Using Wall Box 5000ETP10WB

Note: The wall box must be purchased separately.

Use the supplied mounting screws and washers to fix the touch panel to the touch panel mounting plate in the wall box. See the instructions in the Wall Box Installation Guide.

---

6. Connecting the touch panel cables

Touch panel connections

- Connect the Ethernet cable to the Ethernet port.
- Connect the Ethernet cable to the touch panel.
- Connect the Ethernet cable to the Ethernet port.
- Secure the wall mount frame using appropriate fasteners.

---

Ethernet cable

Connect the Ethernet cable to the Ethernet port. See above.

**NOTICE**

**12 V plug pack power cable**

Note: You must purchase a suitable plug pack that meets the specifications as shown above.

If using a 12 V DC plug pack, connect the power cable to the power connector. See above.

Securing the cables (recommended)

- Install the cable securing plate.
- Connect the touch panel cables for more information.
7. Opening the basic settings page

From power Off

1. [On]
2. [Basic settings]
3. [Network]
4. [OK]

Note for step 3:
The default password is 000000

8. Setting a static IP address (recommended)

Notes for step 6:
- In the URL field, input the address for one of the Controller modules shown in the table below (PC/Tablet Visualization module recommended). If the URL address uses https://, enable the Ignore SSL certificates switch.

<table>
<thead>
<tr>
<th>Page/Module</th>
<th>Address (with default IP address)</th>
</tr>
</thead>
<tbody>
<tr>
<td>PC/Tablet Visualization</td>
<td><a href="http://192.168.10/scada-vis">http://192.168.10/scada-vis</a></td>
</tr>
<tr>
<td>Smartphone/Visualization</td>
<td><a href="http://192.168.10/scada-vis/phone">http://192.168.10/scada-vis/phone</a></td>
</tr>
<tr>
<td>Scheduler</td>
<td><a href="http://192.168.10/scada-vis/schedulers">http://192.168.10/scada-vis/schedulers</a></td>
</tr>
<tr>
<td>Start page</td>
<td><a href="http://192.168.10/scada-home">http://192.168.10/scada-home</a></td>
</tr>
<tr>
<td>Configurator</td>
<td><a href="http://192.168.10/scada-main">http://192.168.10/scada-main</a></td>
</tr>
</tbody>
</table>

9. Connecting to a Controller

Notes for step 1:
- The IP address must be in a range compatible with the Controller’s IP address.
- Gateway, Network and DNS addresses must match those of the Controller.

10. Changing the touch panel password

Notes for step 3:
- Ensure that the Controller user name and password have been set before inputting the Username and Password in this page. Controller defaults are:
  - Username: admin
  - Password: admin

Note for step 3:
Ensure that you press Set to save the settings.

11. Setting the date/time and time zone

12. Restoring factory defaults

From power On

1. [Off]
2. [Press and hold]
3. [On]

Note: All customized touch panel settings and configuration will be lost once the restore is finished.
