

## Press Release

### Gutor Electronic LLC completes NUPIC Quality Audit with no findings

- Audit lead by US nuclear utility team notes highest level of quality with no findings adverse to quality.
- Gutor Electronic has been supplying systems under an ASME NQA-1 quality program to US nuclear utilities since 2009.
- Gutor Electronic has more than 2,850 UPS systems installed in 161 nuclear facilities in 22 countries globally.

#### Wettingen, Switzerland – March 1st, 2020

– Found in compliance with the requirements of 10CFR50 Appendix B and 10CFR Part 21 by the Nuclear Procurement Issues Corporation (NUPIC), NUPIC member utilities can now procure 1E systems from Gutor Electronic leveraging the completed audit and adding Gutor to their Approved Suppliers List.

In February 2020, NUPIC came to the Wettingen manufacturing facility to audit the ASME NQA-1 compliant Quality Management System. The NUPIC Audit is conducted with a standardized checklist using a performance-based methodology consistent with EPRI NP 6630, 'Guidelines for Performance-Based Supplier Audits'

The Gutor Electronic manufacturing facility in Wettingen has been providing custom-tailored Chargers, Inverters, and UPS systems that are highly durable for use in industrial and nuclear environments for more than 50 years. Gutor systems are well suited for a variety of reactor technologies, including BWR, PWR, CANDU, ABWR, AP1000, CPR EPR, Hualong One, PHWR, and VVER.

"The successful NUPIC audit is a huge milestone for Gutor Electronic LLC and has strengthened Gutor's market leadership as a supplier to Nuclear Power Plants, in support of the Nuclear Promise," said Mike May, Sales Manager of Nuclear Business in North America, Gutor Electronic.
