# OptiLine 45

## The 45 direct Click-in installation system

Electrical, telephone and data installations must be easy to install, safe to use and flexible enough to ensure that changes are easy to make. The design of the visible parts must also set the right tone in the office.

OptiLine 45 direct click-in installation system provide integrated installation solutions for ceilings, walls, floors and desks.

Together with Unica wiring devices, solutions are created that fulfil the most stringent demands for function, design, convenience and safety.

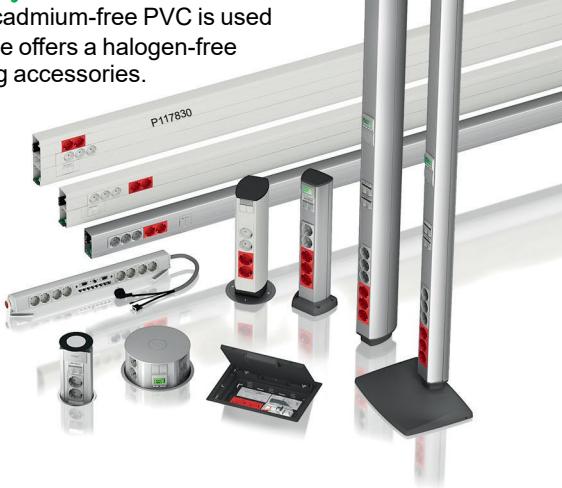

### Direct click-in installation system

- 45 mm front opening
- Direct click-in of Unica 45x45 module wiring devices which gives optimal function and design.

### Environment-friendly

- Only lead-free and cadmium-free PVC is used
- The aluminium range offers a halogen-free alternative, including accessories.

### New Unica 45x45 module wiring devices

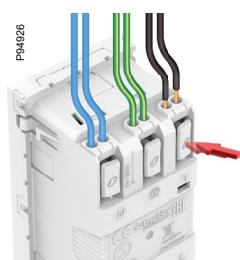

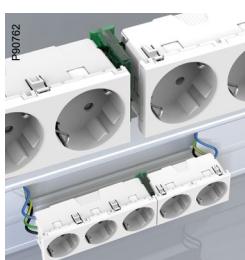

New Unica is a wiring device series suitable for direct click-in in OptiLine 45 trunking, poles, posts, floor boxes and service boxes.

#### Range

Unica offers a broad range of socket outlets, switches, VDI outlets and electronic products such as dimmers, movement detectors, thermostats and timers.

#### Main benefits

- Optional mounting direction for correct user interface in both trunking, poles and posts
- Connection piece for simple interconnection of double and triple outlets without space between
- 45° terminals. Easy to connect even though the outlets are close together
- Dual input and output terminals. For easy loop-through of additional connections such as earthing of trunking.

### Trunking

A cost-effective installation with high capacity.

#### The range

Available in PVC or aluminium with one, two or three compartments.

#### Main benefits:

- Easy installation without the need of instructions. Accessories are mounted directly without adaptation
- 55 mm depth. High cable capacity and space behind the wiring devices
- Pre-punched slots in the partition walls of the PVC trunking. Easy to make holes or openings to feed cables between the compartments
- Trunking base and cover packed together, but not assembled. Easy handling
- Extra-secure click-in function and front locking clip. Gives improved pull-out force.

### Poles

The best solution for a truly flexible office, with power, telecom and data services close to the workplaces. Fed from the ceiling, preferably from connection boxes. Free-standing and movable poles give extra freedom. A pole can be moved within a radius of up to 1.5 metres from the connection point in the ceiling.

#### The range

Available in aluminium, free-standing or tension-mounted. One or two-sided, or with four boxes.

#### Main benefits:

- Design: Aluminium with a high surface finish. Softly rounded and slender form
- Stable, sturdy design. Several parts are cast
- Movable poles have steady feet. The rectangular foot also allows poles to be installed back-to-back or against a wall
- The adjustable ceiling fixing for tension-mounted poles can be fitted easily without tools. Spring-loaded. Total working range of 400 mm
- Cable separation profile gives the correct spacing between VDI and power cables.

### Posts

For power, telecom and data installations close to workplaces, on raised access floors, on screeded floor boxes in concrete floors or on in-cavity floors. Can also be used with other floors, in which case they are supplied via a floor feeder or a floor grommet.

#### The range

Available in aluminium in one and two-sided versions.

#### Main benefits:

- Design: Aluminium with a high surface finish. Softly rounded and compact form
- Stable, sturdy design. Several parts are cast
- Accessories for above-floor supply
- Cable separation profile gives the correct spacing between VDI and power cables.

### Service boxes

Flexible solutions for the supply of power, telecom and data to desks in offices and conference rooms. The boxes can also be used as connection points in the ceiling for feeding of poles.

#### The range

Five box types, all in natural anodised aluminium:

- A six-sided pop-up box, pre-wired with outlets, cable and plug
- A mini pop-up, empty
- A turnable and smoothly rounded one-sided box. Pre-wired with outlets, cables and plugs.
- A one-sided box, empty.
- A flip-up box for flush mounting in desks, empty.

#### Main benefits:

- The range covers many applications
- Many mounting options including concealed installation
- All products in aluminium and metal – high finish and impact resistant
- Ceiling cable feeder – flexible solution also for movable desks.

## Presentation

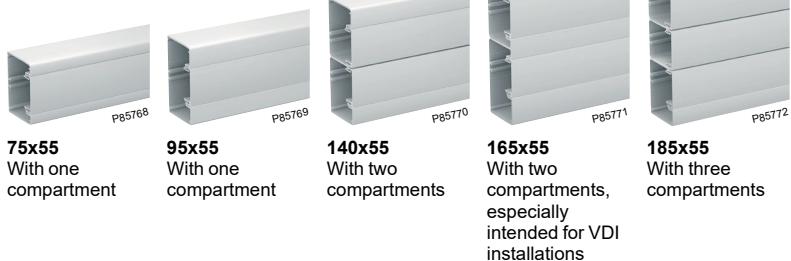

### Installation trunking with 45 mm front opening for direct click-in of Unica wiring devices

OptiLine 45 trunking are available in lead- and cadmium-free PVC or aluminium with a 45 mm front opening. All trunking are 55 mm deep, which gives a high cable capacity and space for cables behind the wiring devices. One of the main advantages is the easy installation. The design is symmetrical and all accessories are click-in mounted without any need of adaptations. It is also very easy to create cross sectional feeding of the cables in the PVC trunking thanks to the pre-punched slots in the partition walls.

Dedicated installation fixings and an extra-secure click-in function for the front and Unica wiring devices give a very reliable installation.

Also the handling is easy. The trunking base and cover are packed together, but not assembled.

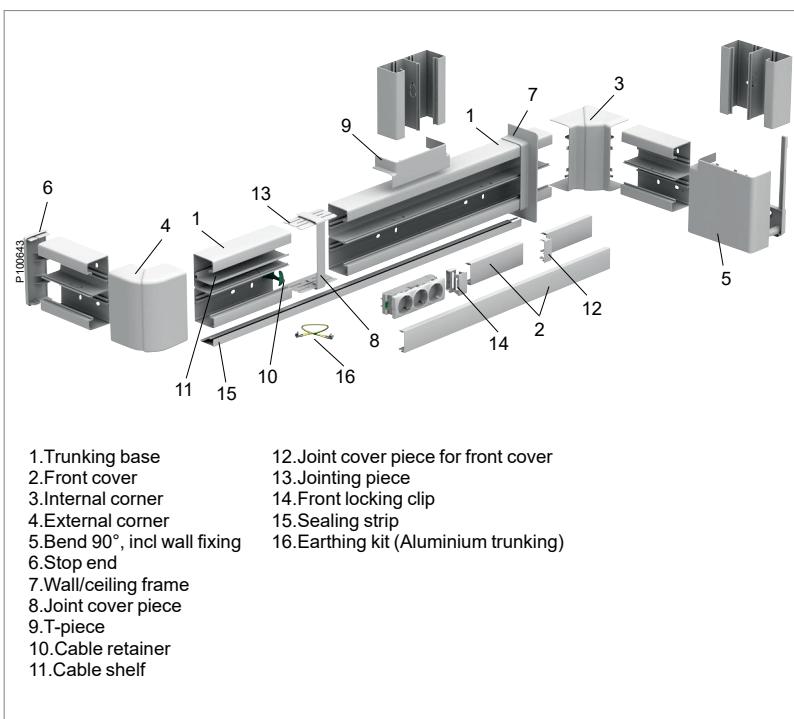

#### PVC Trunking

#### Aluminium Trunking

#### The complete trunking system

#### Unica 45x45 module wiring devices

The OptiLine 45 range has a front opening for direct click-in of Unica 45x45 module wiring devices which gives optimal function and design.

Unica offers a broad range of socket outlets, switches, VDI outlets and electronic products such as dimmers, movement detectors, thermostats, timers.

# OptiLine 45 Trunking

## Presentation

### Click-in accessories

All accessories are designed for easy click-in mounting without tools.

- Easy installation without instructions
- Mounted directly without adaptations
- Mounted when trunking is in place.

### Efficient mounting support

Both PVC and aluminium trunking profiles are prepared for fast, exact and reliable installation.

- Pre-punched oval holes every 25 cm
- Easy to make X and Y adjustments.

### Professional tools and fixings

Dedicated tools and fixings for fast and safe installation.

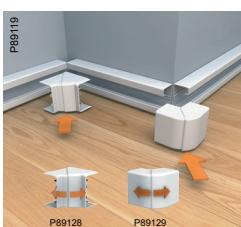

- Extra long drills and bits to avoid damaging the front when using a drilling machine
- Fixings suitable for any material
- Screws for PVC trunking
- Screws to be used together with single-insulated wires.

### Perfect joints

Two jointing pieces for exact levelling and a click-in joint cover piece to hide the gap

- Perfect joints
- No tools needed
- Joint cover piece in one piece
- The jointing pieces can also be used for joints without joint cover piece.

### Adjustable corners

The adjustable corners are delivered in one piece.

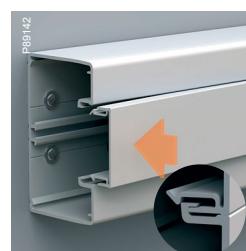

- Easy and quick to mount
- No adaptations needed.

### The cable retainer – a helping hand

The cable retainer keeps all the cables in place in the trunking during the installation.

- Faster installation
- One man can do the work
- Green colour for quick identification
- Can remain in place also after the installation.

### Secure front cover

Auto-guided and extra secure click-in for the front.

High-quality material.

- Easy to mount also when kneeling
- Works reliably even at low temperatures
- Can not be opened without a tool
- IP40 classified.

### Pull-out safe outlets

Extra secure click-in function combined with a front locking clip.

- High pull-out loads on the wiring devices
- Design aligned with Unica.

### Pre-punched slots for easy hole making

Pre-punched slots in the PVC partition walls.

- Easy hole making by hand or with a screwdriver
- Allows cross-sectional feeding of cables.

### Easy feeding without threading

The pre-punched slots can be cut up with a cutting shears.

- The cables can be laid in without threading
- Very easy to feed cables between the compartments
- Cables and outlets can be separated.

### Protective foil

Protective foil on both sides of the trunking base and on the front cover. The main product references including pictures are printed on the foil.

- No surface damages during the installation
- Easy to order new parts.

### Dust protection

A sealing strip can be fitted between the trunking and the floor.

- 5-15 mm coverage
- Easy cleaning
- Solid impression.

### Smart package

The trunking base and front covers are packed together, but not assembled.

- Easy handling
- No damages. The covers are protected until final installation.

# OptiLine 45 Trunking

## Presentation

### Three-compartment trunking

The three-compartment trunking allows a dedicated space for the wiring devices.

- Maximum distance between VDI and power cables
- High capacity
- Easy installation.

### Symmetrical design

The trunking base is symmetrical and has a softly rounded form.

- Easy and safe mounting
- No risk of installing the trunking upside-down
- The trunking form guides the accessories in place.

### 55 mm depth

All trunking are 55 mm deep.

- High cable capacity
- Space enough for 3x2.5 mm<sup>2</sup> cables behind the wiring devices.

### Perfect bends

The bend kit includes an adjustable fixing device to be screw-fitted to the wall.

- Large tolerances when cutting and fixing the trunking
- Self-guiding mounting of the bend piece
- Perfect result and finish.

### High classification

The trunking is IP40 and IK07 classified.

- Safe and impact resistant

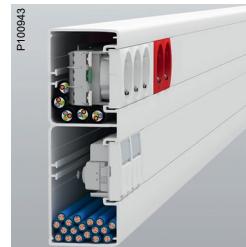

- Can not be opened without a tool.

The PVC trunking is fire classified in category M1.

### One-compartment trunking

Suitable for both installation and distribution. A cable shelf separates VDI cables from power cables.

### Dedicated VDI trunking

A non-symmetrical two-compartment trunking especially intended for VDI installations.

- Extra space for VDI cables in the larger lower compartment
- Long distance between VDI and power cables.

### Easy earthing of aluminium trunking

The aluminium trunking base and front cover has easily accessible earthing rails. A pre-mounted earthing kit is available on one reference number.

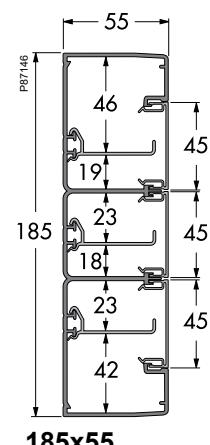

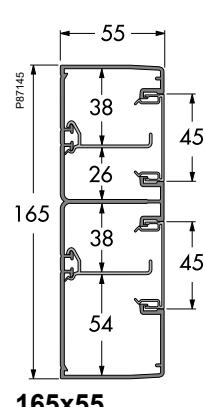

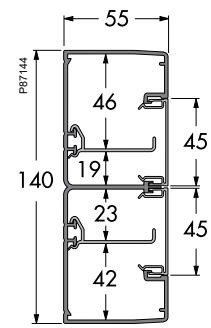

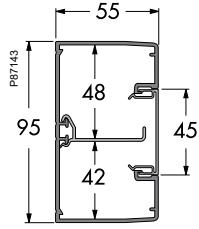

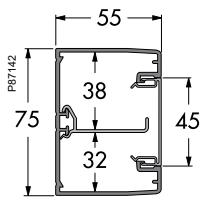

- Easy to order
- Quick and easy to mount
- Screwless mounting.

P8575	With two compartments, the lower comp. for VDI appl.	Anodized	165/55/2000	6 m	3606480028182	ISM10450
P8576	With three compartments	Anodized	185/55/2000	6 m	3606480028328	ISM10550

## Accessories for aluminium trunking

	<b>Internal corner</b>					
Adjustable internal corner for an 80–100 degree angling of aluminium trunking. Material: PC/ABS, painted.						
P8597	For trunking 140x55	Alu metallic	149/117/117	1	3606480028038	ISM10351
	For trunking 185x55	Alu metallic	194/117/117	1	3606480028335	ISM10551
<b>External corner</b>						
Adjustable external corner for a 75–135 degree angling of aluminium trunking. Material: PC/ABS, painted.						
P85798	For trunking 140x55	Alu metallic	149/105/105	1	3606480028045	ISM10352
<b>Bend, 90°, kit</b>						
90 degree bend kit for angling upwards and downwards of aluminium trunking. Including bend piece and fixing device to be screw-fitted to the wall. Material: PC/ABS, painted.						
P85799	For trunking 140x55	Alu metallic	167/57/167	1	3606480028052	ISM10353

## Accessories for aluminium trunking

	Type	Colour	Dimensions A/B/C (mm)	Qty per package	EAN code	Ref. No.
<b>Stop end</b>						
P85800	Stop end for aluminium trunking. Including screw and nut to fix the stop end in the trunking base. Material: PC/ABS, painted.					
	For trunking 75x55	Alu metallic	79/56/21	2	3606480027826	ISM10154
	For trunking 140x55	Alu metallic	144/56/21	2	3606480028069	ISM10354
	For trunking 185x55	Alu metallic	189/56/21	2	3606480028366	ISM10554
<b>Wall/Ceiling frame</b>						
P85801	Wall/Ceiling frame to be fitted around an aluminium trunking at wall or ceiling passage. Easily modified to C or L-profile depending on how the passage is made. Snap-fitted, with a screw-fixing option for high security. Material: PC/ABS, painted.					
	For trunking 140x55	Alu metallic	195/82/22	1	3606480028076	ISM10355
<b>Joint cover piece, kit</b>						
P85802	Joint cover piece, supplied and mounted together with two jointing pieces. Intended to cover joints between two aluminium trunking sections. Easy to remove in case of an upgrading of the installation. Material: PC/ABS, painted.					
	For trunking 140x55	Alu metallic	145/57/100	1	3606480028083	ISM10356
<b>Front cover</b>						
P85796	Front cover to be snap-fitted in trunking with a 45 mm front opening. With earthing slots. Supplied with protective foil, in lengths of 2 m. Material: Aluminium.					
	Front cover	Anodized	45/16/2000	24 m	3606480028489	ISM10950
<b>Cable shelf</b>						
P85798	Single cable shelf to be mounted in the trunking base, providing separation between power and low voltage cables. Supplied in lengths of 1 m. Material: PVC.					
	Cable shelf	White RAL 9010	17/47/1000	24 m	3606480028410	ISM10902

		TP 6	Red	Ø6x30	100	7315881003020	1003020	
<b>Nail plugs</b>								
P8051		Nail plug including nail for through installation. Suitable for use in concrete, stone, lightweight concrete, expanded clay, hollow bricks, solid bricks and plasterboard. Material: PA.	TPS-6/5x35	Clear	Drill Ø6	100	7315881150007	1150002
		TPS-6/20x50	Clear	Drill Ø6	100	7315880100027	1150051	
<b>Installation screws</b>								
P8052		Screw with large thin head and integrated washer. Phillips cross recess. Twin thread. Fully threaded. Gives very good pressure when fixing plastic trunking. Material: Hardened steel, electroplated.	TSC-32	—	Ø4.2x25	100	7315883782022	3782020
		TSC-33	—	Ø4.2x31	100	7315883782039	3782030	
P81315		Screw with raised countersunk head, Phillips cross recess. Fully threaded. Suitable for mounting directly into plasterboard. Material: Steel, electroplated.	TSF-25	—	Ø4.8x25	100	7315883782428	3782420
		TSF-35	—	Ø4.8x35	100	7315883782435	3782430	
		TSF-45	—	Ø4.8x45	100	7315883782442	3782440	
<b>Installation screw with cup washer</b>								
P80119		Screw with cross-slotted head type PH2. Sharp point, fully threaded. High pitch for quick mounting. Provided with a cup washer for screw-head protection. To be used when installing single-insulated wire in the trunking. Material: Hardened steel, electroplated, and PP.	TFT-IS5x32	—	Ø5x32	100	7332418018203	4020210
<b>Cavity fixings</b>								
P80837		Cavity fixing with metal toggle for high load values. Material: Zinc/Steel.	TPP-10xM4S	—	Drill Ø10	25	7315881200009	1200005
		TPP-13xM5S	—	—	Drill Ø13	25	7315881200405	1200401
P80047		Cavity fixing for light installations in plasterboard. Board thickness from 9 mm. Screw size 4.5x35. Material: Zinc.	TPD-Metal	—	Screw size 4.5x35	100	7315880114291	1220104
P91678		Cavity fixing including a 38 mm long screw. The shape of THW prevents it from rotating. No pre-drilling needed, just hammer in. Excellent for porous and thin material. Pull-out load 100 N, safety factor 3, shear load 100N, safety factor 2.5. Board thickness 6-13 mm, max. thickness of fixture 16 mm. Material: Steel, electroplated.	THW 4.2x38	—	—	50	7315881260171	1260170

## Technical description

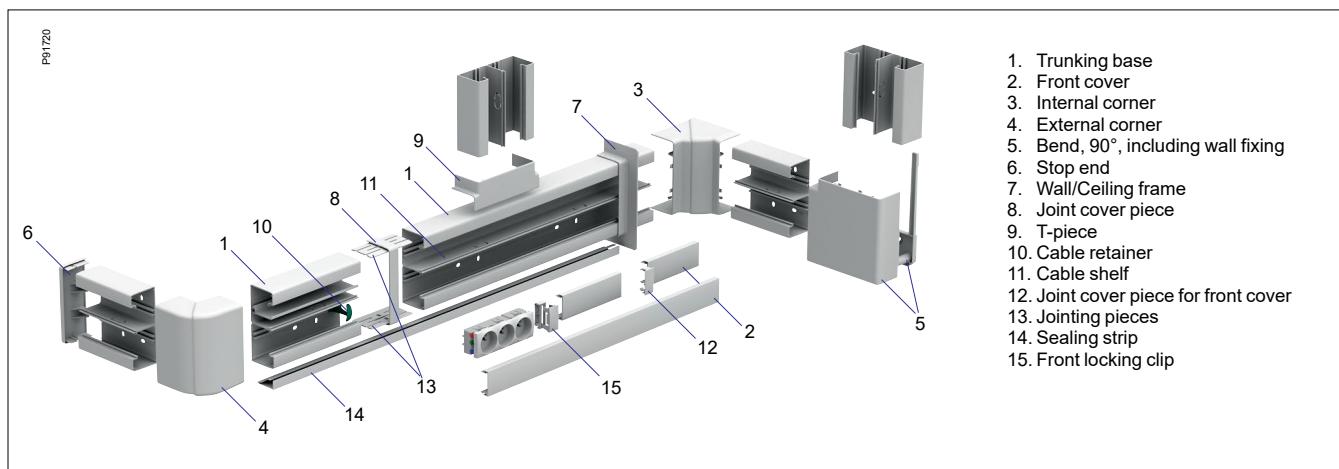

### Design and dimensions

### Technical and Material data

PVC (self-extinguishing, lead and cadmium-free)	Fire rating	UL 94 V0 (0.8 mm)
Aluminium	Colour	Polar white (RAL 9003)
PC/ABS	Surface treatment	Natural anodizing
PA (polyamide), halogen-free	Fire rating	UL 94 HB
	Colours	<ul style="list-style-type: none"> <li>Polar white (RAL 9003)</li> <li>Aluminium metallic (painted)</li> </ul>
PC+ASA	Fire rating	UL 94 V0
	Colours	<ul style="list-style-type: none"> <li>Green</li> <li>Clear</li> </ul>
PE (polyethylene), halogen-free	Fire rating	UL 94 HB
	Colours	<ul style="list-style-type: none"> <li>Polar white (RAL 9003)</li> <li>Aluminium metallic</li> </ul>
Degree of protection	IP40	
Temperature range	Operating temperature from -25°C to +60°C	
Resistance to impact	PVC trunking	2J (IK07)
	PC/ABS accessories	2J (IK07)
Standards and certificates	The products comply with the standards:	
	<ul style="list-style-type: none"> <li>EN 50085-1:2005</li> <li>pr EN 50085-2-1:2002</li> <li>NFC 68 102:1990 (French national standard)</li> </ul>	
	The products satisfy the provisions for CE marking according to the Low Voltage Directive 73/23/EEC and 93/68/EEC.	

### Exploded view

### Unica 45x45 module wiring devices

The OptiLine 45 range has a front opening for direct click-in of Unica 45x45 module wiring devices which gives optimal function and design.

Unica offers a broad range of socket outlets, switches, VDI outlets and electronic products such as dimmers, movement detectors, thermostats, timers.

### Service poles with 45 mm front opening for direct click-in of Unica wiring devices

OptiLine 45 service poles with a 45 mm front opening offer very flexible installation solutions, bringing power, telecom and data directly from the ceiling to the desk.

The poles have a softly rounded and slender form and are made of aluminium with a high surface finish, either natural anodised or powder coated white. They are installed free-standing in the room mounted on a foot and movable within a radius of up to 1.5 metres from the connection point in the ceiling, or tension-mounted between floor and ceiling. Both types are available in one and two-sided versions, or with four boxes.

The spring-loaded and adjustable ceiling fixing for tension-mounted poles can be fitted easily without tools.

# OptiLine 45 Poles

## Presentation

### Correct user interface

Unica is also designed for vertical mounting

- Correct user interface
- Correct load on VDI patch cords

### Design, finish and quality

All OptiLine poles are made of aluminium, anodized or powder coated, with a high surface finish. The form is softly rounded and slender. All parts are designed to give reliable function and easy installation.

### Stable and sturdy

All parts in aluminium, several are die-cast. Foot in sand-cast iron.

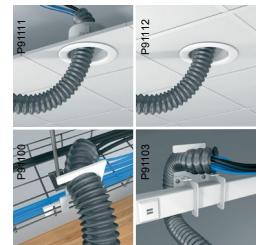

- Stable and sturdy design
- Reliable function
- High-quality impression.

### Innovative square foot

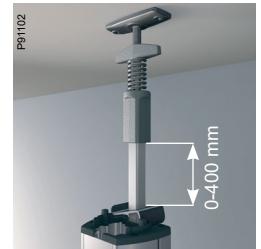

The foot has a steel clamp that can be unfolded for extra support.

- Steady
- Nice installation close to the wall
- Two poles can be placed back to back.

### Many mounting options

Accessories for all mounting options. The ceiling frame for the flexible conduit is mounted without a tool and can be adjusted to different ceiling thicknesses.

### Handy ceiling fixing

Fitted easily without tools. Self-locking adjustment.

- Quick and safe installation
- 400 mm working range
- Mechanism outside the pole – does not interfere with the wiring devices.

### Cable separation

Partition profile for good separation of cables.

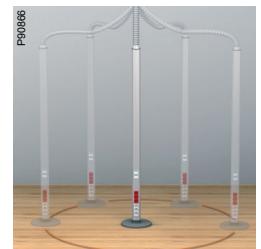

- Correct distance between VDI and power cables
- Full isolation between terminations and cables.

### Screw slots

Slots along both sides of the pole.

- For decorative colour strips
- For products like spotlights, small shelves etc.

### Flexibility

The movable pole has a steady foot and a flexible conduit.

- Easy to move the poles to optimize the office layout
- 1.5 m action radius.

### Smooth stop-end

Stop end in cast aluminium with smoothly shaped edges.

- Covers the sharp cut of the base profile
- No risk of damaged cables.

#### Two-sided Pole

Free-standing and movable service pole, two-sided. Pre-wired, each side configured with 3 x double outlets, side-earthed, with cable, and two blind covers 45 x 45. Including front cover, flexible conduit with adaptor, strain relief and mounting instruction. Length of flexible conduit 2.0 m, action radius 1.5 m from the connection point in the ceiling. Earthed. Foot to be ordered separately.

External cables: one unshielded 3 x 1.5 mm<sup>2</sup> cable with side-earthed plug, 2.0 m free length.

Two-sided Pole	White	Aluminum	2150+2000/116/90	1	ISM22244P
	Anthracite	Aluminum	2150+2000/116/90	1	ISM22245

#### Wall-mounted Pole

Service pole intended for wall mounting. Pre-wired, configured with 3 x double outlets, side-earthed, with cable, and two blind covers 45 x 45. Including front cover, wall and floor brackets, strain relief and mounting instruction.

External cables: one unshielded 3 x 1.5 mm<sup>2</sup> cable with side-earthed plug, 2.0 m free length.

Wall-mounted Pole	White	Aluminum	2150+2000/116/90	1	ISM22242P
	Anthracite	Aluminum	2150+2000/116/90	1	ISM22243

### Accessories for poles

P86528		<b>Foot for free-standing, movable pole</b>	Rectangular foot for free-standing, movable pole, to be fixed to the bottom plate of the pole by means of two M6 bolts (included). The foot is provided with a steel clamp that can be unfolded for extra support. When not in use, the clamp lies protected in a recess underneath the foot. Specially suited in applications close to the wall or when two poles are positioned back to back. Material: Cast iron, painted.	170 250 345	P81547
P86529		<b>Foot for free-standing, movable pole</b>	Round foot for free-standing, movable poles, to be fixed to the bottom plate of the pole by means of two M6 bolts (included). Suitable both for one and two-sided poles. Material: Cast iron, painted.	1	3606480030581 ISM20809
<b>Ceiling frame</b>					
P86527		<b>Ceiling frame</b>	Ceiling frame intended to lead flexible conduit through false ceiling. To be mounted in circular hole, Ø125 mm, by using three included clamps. Also including a slotted plastic plate to be used to lock the flexible conduit, which is fixed by cable ties. The plate can also be used as a drill template for entrance hole Ø125 mm. Material: PC/ABS.	1	3606480682216 ISM20812P

# OptiLine 45 Posts

## Presentation

### Service posts with 45 mm front opening for direct click-in of Unica wiring devices

OptiLine 45 service posts with a 45 mm front opening give a neat installation solution on all types of floors.

The posts have a softly rounded and compact form and are made of aluminium with a high surface finish, either natural anodised or powder coated white. They are available in one and two-sided versions.

On raised access floors and in-cavity floors the posts are fed from under the floor. On concrete floors the feeding comes from a screeded floor box. For other floors a floor feeder is available as an accessory.

#### Unica 45x45 module wiring devices

The OptiLine 45 range has a front opening for direct click-in of Unica 45x45 module wiring devices which gives optimal function and design.

Unica offers a broad range of socket outlets, switches, VDI outlets and electronic products such as dimmers, movement detectors, thermostats, timers.

#### One-sided posts

#### Two-sided posts

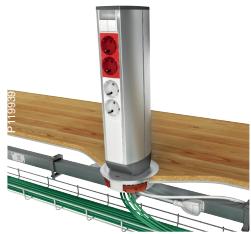

#### Two-sided posts for floor grommet

# OptiLine 45 Posts

## Presentation

### Full flexibility

For a truly flexible solution, go for our two-sided outlet post with a special fixing for the floor grommet. Canalis busbar trunking and mesh trays distribute power and networks under the floor and further up to the post through the floor grommet. The floor grommet suits any type of floor and can be installed where required. Should needs be changed, just remove the post, put the cover back, install a new grommet and move the post to where it is needed.

### Tube adaptor

With a tube adaptor in the floor grommet you can supply power and data to a furniture box instead.

### Stable and tight

When not in use the centre cover makes the floor grommet tight, withstanding both water and high loads.

### Design, finish and quality

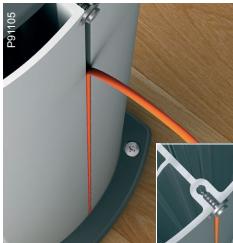

All OptiLine posts are made of aluminium, anodized or powder coated, with a high surface finish. The form is softly rounded and slendred. All parts are designed to give reliable function and easy installation.

### Stable and sturdy

All parts in aluminium, several are die-cast.

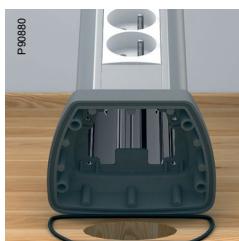

- Stable and sturdy design
- Reliable function
- High-quality impression

### Feeding along/under the floor

Posts could be fed from the floor or along the floor

- Floor fixing for feeding from the floor as a standard
- Floor fixing with slot for floor feeder as an accessory

### Cable separation

Partition profile for good separation of cables.

- Correct distance between VDI and power cables
- Full isolation between wiring device terminations and cables

### Wet sealing

The floor fixing can be provided with a gasket ring.

- Gasket ring included in the package
- Effective wet sealing
- Stable mounting also on slightly uneven floors

# OptiLine 45 Service boxes

## Presentation

### Service boxes with 45 mm front opening for direct click-in of Unica wiring devices

OptiLine 45 service boxes provide flexible solutions for the supply of power, telecom and data to desks in offices and conference rooms. The basic boxes can also be used as access points in the ceiling for feeding of poles.

Three box types are included in the offer:

- A six-sided pop-up box, pre-wired with outlets, cable and plug.
- A mini pop-up box, empty for three modules, with strain relief.
- A flip-up box, empty for five modules. For flush-mounting in desks. Fixing elements, earthing cable and strain relief included.
- A turnable and smoothly rounded one-sided box. Pre-wired with outlets, cables and plugs.
- A one-sided basic box.

All boxes are made in natural anodised aluminium with a high finish. Many boxes are delivered pre-wired for easy ordering and quick installation.

The pop-up box and the turnable boxes offer unique user advantages in terms of design and accessibility.

## Technical description

### Description

OptiLine 45 desk units are made of natural anodized aluminium. Three types are included in the offer;

- A basic rectangular one-sided version made up by a base profile with accessories. To be mounted on desk, cable tray or wall by means of dedicated fixings. The unit can be installed in an OptiLine 70 post by incorporating an accessory kit. Supplied in an empty version in five sizes, to be used for customer configuration. Feeder accessories comfortably bring cables from the ceiling to the box.
- A flush-mounted desk unit provided with a flip lid. To be mounted in the desk-top, intended for single user application.
- A turnable one-sided desk unit, with smoothly rounded design. The box is standing on two designed feet and can be turned around its own axis to the desired position. Supplied in different configurations with cables and plugs.
- A one-sided manual pop-up desk unit, intended for single user applications, mounted in the desk-top (office application), or in kitchen table-tops (residential application).
- A round 6-sided pop-up desk unit, supplied in different configurations. The unit is intended for mounting in for instance conference tables, where there is a need for occasional connections to power and VDI.

### Benefits

- Made of natural anodized aluminium with a high finish.
- Many desk units are pre-wired for easy ordering and quick installation.
- Pop-up and turnable desk units offer unique user advantages in terms of design and accessibility.
