Key benefits with EcoStruxure™ for Life Sciences
- A reliable, efficient, flexible, compliant and sustainable facility for your production
- Reduce downtime and improve flexibility and production capacity, resulting in higher patient throughput and increased profitability
- Reduce unplanned downtime by 4.58% and increase business uptime by 4.58%
- Landmark study shows pharma worse than the automotive industry for carbon emissions
- Survey reveals data breaches hitting pharma industry
- How to quickly build a pharmaceutical facility

EcoStruxure™ for Life Sciences – IoT-enabled platform for building next-generation industries
