**Customer Reference** :  
:

**Product:** Prisma P cubicles

We, Schneider Electric, guarantee Prisma P has been tested in CESI lab for a seismic withstand. The switchboards have been tested according to the standards IEC60068-3-3 & 2-57. Reports number B4017316 & B6010967, mentioned the following acceleration capacity :

We can declare that during these seismic tests, the electrical continuity was maintained, and after the switchboard kept its IPxxb and mechanical functionalities.

This result is based on a typical assembly of Prisma P switchboards with the seismic kit, and the equipment has been assembly according to the Prisma catalogs, mounting instructions and assemblies guides.
