EMERGENCY STOP ROPE PULL SWITCHES

MECHANICAL ENDURANCE: 800,000 operating cycles

SAFETY INFORMATION:

Read these instructions carefully and keep this equipment to become familiar with the device before installing, operating, or maintaining it. The following special messages may appear throughout this documentation or on the equipment to warn of potential hazards or to call attention to information that qualifies or simplifies a procedure.

The addition of the symbol A DANGER or flaming safety label indicates that an electrical hazard exists, which will result in physical injury if the instructions are not followed.

This is the safety alert symbol. It is used to alert you to potential physical injury hazards. Obey all safety messages that follow this symbol to avoid possible injury or death.

SAFETY INFORMATION:

MECHANICAL ENDURANCE:

2) A support or element may be described as “rigid” if it is capable of supporting a load of 2,000 N.

NOTE:

Secure the cable through all cable guides firmly to rigid elements. Ensure that the product is anchored along the same axis as the cable.

FAILURE INFORMATION:

RISK OF UNINTENDED EQUIPMENT OPERATION

Check that the device, cable and accessory are securely mounted in place.

Failure to follow these instructions will result in death or serious injury.

RISK OF ELECTRICAL SHOCK, EXPLOSION OR ARC FLASH

Switch off the power supply of the device.

Failure to follow these instructions will result in death or serious injury.

RISK OF PHYSICAL INJURY

Check the cover is securely closed.

Failure to follow these instructions will result in death or serious injury.

RISK OF PHYSICAL INJURY

Check the device, cable and accessories are securely mounted in place.

Failure to follow these instructions will result in death or serious injury.

RISK OF UNINTENDED EQUIPMENT OPERATION

Check that the device, cable and accessory are securely mounted in place.

Failure to follow these instructions will result in death or serious injury.

RISK OF ELECTRICAL SHOCK, EXPLOSION OR ARC FLASH

Adjust the configuration to take into account the maximum allowable operating temperature variance (fig. 3) and take into account the table from the note.

Failure to follow these instructions will result in death or serious injury.

RISK OF PHYSICAL INJURY

Check that the device, cable and accessory are securely mounted in place.

Failure to follow these instructions will result in death or serious injury.

RISK OF PHYSICAL INJURY

Check the device, cable and accessory are securely mounted in place.

Failure to follow these instructions will result in death or serious injury.

DANGERS:

DANGER

Failure to follow these instructions will result in death or serious injury.

WARNING

Failure to follow these instructions will result in death or serious injury.

DISMANTLING / RECYCLING

Failure to follow these instructions will result in death or serious injury.

NOTE:

The internal mechanism and the electrical contact blocks are fitted with springs which can result in the projection of parts.

DANGER

Failure to follow these instructions will result in death or serious injury.

WARNING

Failure to follow these instructions will result in death or serious injury.
