Serviceinhalt

Sähkökalusteet

All bestyckning av FrontLine servicebärare bör göras med serviceinnehåll typ CAN eller CYB. Vid installation av annat fabrikat (c/c 60 standard) skall installationsdosa typ MIB användas.

FrontLine service carriers should be equipped with service content type CAN or CYB. When installing other makes of service content:

– UK and Ireland: for service content having screw fixings on 60.3 or 120.6 mm centres, either mounting boxes type CYB-S30 and D30 shall be used, or alternatively where deeper boxes are required, types CYB-S40 and D40 fitted with CYB-P40 screw pillars.

– Other markets: for service content having screw fixings on 60 mm centres, mounting boxes type MIB shall be used.

Die gesamte Bestückung der FrontLine Serviceträger soll mit Serviceinhalt des Typs CAN und CYB erfolgen. Für Installationen von anderen Fabrikaten (c/c 60 Standard), müssen Geräteinbaudosen des Typs MIB verwendet werden.

FrontLine johtoteihin asennetaan CAN- tai CYB-pistorasiakalusteet. Muiden valmistajien pistorasiakalusteet asennetaan johtokanavaan MIB-kojerasian avulla.
