Overview

Schneider Electric has become aware of a vulnerability in the Wonderware InduSoft Web Studio product.

Vulnerability Overview

The vulnerability identified is insecure permissions on files/directories in system PATH. Successful exploitation of this vulnerability could allow authenticated system users, to escalate their privileges

Product(s) Affected

The product(s) affected:

- Wonderware InduSoft Web Studio v8.0 Patch 3 and previous versions

Vulnerability Details

The product’s installation creates a new directory, C:\Bin\x86, which contains two (2) files.

The directory and files are added to system's PATH. Therefore, they can be manipulated by non-administrator users to write malicious files/DLLs and escalate privileges once these are executed.

Overall CVSS Score: 8.4 (High)

Important Security Notification

Mitigation

The latest versions of Wonderware InduSoft Web Studio v8.0 + Service Pack 1 or newer, with the fix for this vulnerability, are available for download.
